

DIS Navigation System / Owner's Manual

Thank you for purchasing this DIS Navigation system.

This user's manual explains how to use the HYUNDAI Motor DIS Navigation system.

Before using the product, read the contents of this user's manual carefully and use this product safely.

- The screens shown in this manual may differ with the actual screens of the product.
- The design and specification of this product may change without prior notification for product improvement.
- When transferring the vehicle to another individual, include this user's manual so that the next driver can continue its use.

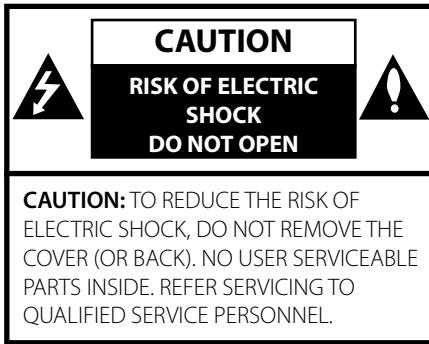

All Map Database cannot be copied without permission.

Important Notice: This is protected by U.S. copyright laws. All rights not expressly granted are reserved.

You may not otherwise reproduce, modify, and distribute the content without M&Soft, Inc's prior written consent.

Precautions for safety

Safety notes

The lightning flash with the arrowhead symbol within an equilateral triangle is intended to alert the user about the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Always operate the vehicle in a safe manner. Do not become distracted by the vehicle while driving and always be fully aware of all driving conditions. Do not change settings or any functions.

Pull over in a safe and legal manner before attempting such operations.

To promote safety, certain functions are disabled unless the hand brake is on.

When driving your vehicle, be sure to keep the volume of the unit low enough to allow you to hear sounds coming from the outside.

Do not drop it and avoid heavy impacts at anytime.

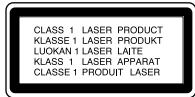

The driver should not watch the monitor while driving. If the driver watches the monitor while driving, it may lead to carelessness and cause an accident.

To reduce the risk of fire or electric shock, do not expose this product to dripping or splashing water, rain, or moisture.

Precautions for safety

CAUTION:

This product uses a Laser System.

To ensure proper use of this product, please read this owner's manual carefully and retain it for future reference. Should the unit require maintenance, contact an authorized service centre. Performing controls, adjustments, or carrying out procedures other than those specified herein may result in hazardous radiation exposure.

To prevent direct exposure to laser beam, do not try to open the enclosure.

Visible laser radiation when open. DO NOT STARE INTO BEAM.

WARNING:

- Don't use a cellular phone when you are driving. You must stop at a safe place to use a cellular phone.
- The use of the navigation radio by no means relieves the driver of his/her responsibilities. The highway code must always be observed. Always observe the current traffic situation.
- The applicable traffic regulations and the prevailing traffic situation always take precedence over the instructions issued by the navigation system if they contradict one another.
- For traffic safety reasons, use the navigation system menus only before starting a journey or when the vehicle is stationary.
- In certain areas, one-way streets and turn off and entry prohibitions (e.g. pedestrian zones) are not recorded. In areas such as these the navigation system will issue a warning. Pay particular attention to one-way streets and turn off and entry restrictions.
- The navigation system does not take the relative safety of the suggested routes into consideration. Road blocks, building sites, height or weight restrictions, traffic or weather conditions or other influences which affect the route safety or travel time are not taken into consideration for the suggested routes. Use your own discretion in order to decide on the suitability of the suggested routes.
- The current legal road traffic speed limit always takes priority over the values saved on the data. It is impossible to provide an assurance that the speed values of the navigation system will always match those of the current traffic regulations in every situation.
- Always observe the applicable legal speed limits the traffic regulations. The vehicle speedometer must always be given priority for display of the vehicle speed.
- Do not rely exclusively on the navigation system when attempting to locate an emergency service (hospital, fire service etc.). It cannot be guaranteed that all available emergency services in your vicinity are saved in the database. Use your own discretion and abilities to secure help in such situations.

Precautions for safety

CAUTION:

- Do not keep the navigation system running with the engine stopped. Doing so may discharge the vehicle battery. When you use the navigation system, always keep the engine running.
- When the driver wants to operate the navigation system, first park the vehicle in a safe location and set the parking brake. Operating the system while driving can distract the driver and may result in a serious accident.
- Do not disassemble or modify this system. If you do, it may result in accidents, fire, or electrical shock.
- Some states/provinces may have laws limiting the use of video screens while driving. Use the system only where it is legal to do so.
- Do not use your phone in private mode when you are driving. You must stop at a safe location to use it.

Disposal of your old appliances

1. When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by the European Directive 2002/96/EC.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

Disposal of waste batteries/ accumulators

1. When this crossed-out wheeled bin symbol is attached to batteries/accumulators of Your product it means they are covered by European Directive 2006/66/EC.
2. This symbol may be combined with chemical symbols for mercury(Hg), cadmium(Cd) or lead(Pb) if the battery Contains more than 0.0005% of mercury,0.002% of cadmium or 0.004% of lead.
3. All batteries/accumulators should be disposed separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
4. The correct disposal of Your old batteries/ accumulators will help to prevent potential negative consequences for the environment, animal and human health.
5. For more detailed information about disposal of Your old batteries/accumulators, please contact Your city office, waste disposal service or the shop where You purchased the product.

General information

About Disc

Precautions upon Handling Discs

- After using a disc, put the disc back in its original case to prevent disc scratches.
- Do not use abnormally shaped discs (8cm, heart-shaped, octagon-shaped) as such discs could lead to malfunctions.
- Do not clean discs with chemical solutions, such as record sprays, antistatic sprays, antistatic liquids, benzene, or thinners.
- Do not expose the disc to direct sunlight or high temperatures for prolonged periods of time. Such exposure may lead to disc deformation.
- Upon playing a disc contaminated by dirt or other substances, the sound quality may deteriorate and result in skipping sounds. Writing on either side of the disc could result in damage to disc surfaces.
- Clean fingerprints and dust off the disc surface (coated side) with a soft cloth.
- Copy-protected CDs, such as S-type CDs, may not properly operate in the device. DATA CDs cannot be played. (However, such discs may still abnormally operate.)

- Do not disassemble the device. Contact a designated service centre in case of malfunction. (Complete after service assistance will not be provided if the user disassembles the device.)
- Do not use water to clean the device. Exposure to water could lead to product malfunction.
- Do not introduce foreign substances into the disc insert/eject slot. Introducing foreign substances could damage the device interior.
- The device may fail to properly operate in extremely hot or cold temperatures.
- Steam can become condensed on the fiber-optic lens due to rain, wet conditions, or upon operating the heating system. In such cases, discs may not be properly recognized. Remove the disc and wait until the moisture dries.
- Skipping may occur when driving on bumpy roads for prolonged periods of time or upon severe shock, audio may not play properly.
- Do not attach sticker or label on the disc. Sticker or label may fall off and damage the system.
- Do not insert two or more discs into the disc slot simultaneously. It may damage the disc player.
- While disc is being inserted to the disc player by its self-loading mechanism, do not hold the disc or forcefully pull the disc. It may damage the disc player and the disc.
- Non-genuine discs may cause defective recognition or product disorder.

Types of Playable Discs

DVD-VIDEO (12 cm disc)

Video CD (12 cm disc)

Audio CD (12 cm disc)

CD-R/RW

In addition, this unit can play a DVD±R, DVD±RW, CD-R or CD-RW that contains audio titles, MP3 or WMA files.

Depending on the conditions of the recording equipment or the CD-R/RW (or DVD-RW, DVD+RW) disc itself, some CD-R/RW (or DVD-RW, DVD+RW) discs may not be played on the unit.

General information

NOTES ON COPYRIGHTS

It is forbidden by law to copy, broadcast, show, broadcast via cable, play in public, or rent copyrighted material without permission.

This product features the copy protection function developed by Macrovision. Copy protection signals are recorded on some discs. When playing the pictures of these discs on a unit, picture noise will appear. This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

DVD Region Code

This instrument is manufactured according to the region code number recorded in the DVD. If the DVD region code number does not match the region number of this instrument, DVD may not be played. Use the DVD corresponding to your region.

PBC: Playback Control (Video CD only)

Playback control is available for Video CD (VCD version 2.0 disc formats). PBC allows you to interact with the system via menus, search functions, or other typical computer-like operations. Moreover, still pictures of high resolution can be played if they are included in the disc. Video CDs not equipped with PBC (Version 1.1) operate in the same way as audio CDs.

If “” symbol appears

If “” symbol is displayed on the screen, the current screen will not be operated during the driving.

About USB

Connect the USB device after turning on the engine. The USB device may become damaged if it is already connected when the ignition is turned on.

- Files that are not standard format files will not be played.
- For MP3/WMA files, only music files with compression rates between 8 Kbps ~ 320 Kbps can be played.
- Heed caution to static electricity when connecting/disconnecting external USB devices.
- Encoded MP3 Players will not be recognized when connected as an external device.
- When connecting an external USB device, the device may not properly recognize the USB is in some states.
- Only USB devices formatted as FAT 12/16/32 are supported, and NTFS file system is not supported.
- Some USB devices may not be supported due to compatibility issues.
- Avoid contact between the USB connector with bodily parts/foreign objects.

General information

- Repeated connecting/disconnecting of USB devices within short periods of time may result in product malfunction.
- Insert USB device after starting the car. If the car is started while USB device is inserted, it may damage USB device.
- The amount of time required to recognize the external USB device may differ depending on the type, size, or file formats stored on the USB. Such differences in required time are not indications of malfunction.
- The device may not recognize the USB device if separately purchased USB hubs and extension cables are being used. Connect the USB directly with the multimedia terminal of the vehicle.
- When application programs are installed to specific USBs, files may not properly play.
- The device may not operate normally if MP3 Players, cellular phones, digital cameras, or other electronic devices (USB devices not recognized as portable disk drives) are connected with the device.
- Charging through the USB may not work for some mobile devices.
- The device may not support normal operation when using a USB memory type besides Metal Cover Type USB Memory.
- The device may not support normal operation when using formats such as HDD Type, CF, or SD Memory.
- The device will not support files locked by DRM (Digital Rights Management).
- USB memory sticks used by connecting an Adaptor (SD Type or CF Type) may not be properly recognized.

MP3 file Information

- Sampling frequency: 8 ~ 48 KHz (MP3), 22.5 ~ 48 KHz (WMA)
- Bit rate: 8 ~ 320 Kbps (MP3), 20 ~ 320 Kbps (WMA)
- Version: v2, v7, v8, v9
- Playable file format: ".mp3" / ".wma"

Image file Information

- Playable file format: ".bmp", ".jpg", ".gif", ".png", ".tif" (Max 5MB)
- It may not properly operate depending on the storage type.

Video file Information

- Video Resolution: 720 x 576 pixels (DivX), 1280 x 720 pixels (except DivX).
- Playable file format: ".avi", ".mpg", ".mpeg", ".divx", ".mp4"
- Subtitle format: ".smi"
- Video Codec: "DIVX3.xx", "DIVX4.xx", "DIVX5.xx", "MP4V3", "3IVX".
- Audio Codec: "PCM", "MP3", "WMA", "WAV".
- If video and caption file names are different, caption may not be displayed.
- If DivX file format does not match main unit, it may not be played properly.

General information

Using iPod Devices

Precautions upon using iPod

iPod® is a registered trademark of Apple Inc.

- Some iPods with unsupported communication protocols may not properly operate with the system.
- If the iPod malfunctions due to an iPod device defect, reset the iPod and try again. (To learn more, refer to your iPod manual.)
- During ACC ON state, connecting the iPod through the iPod cable (The cable that is supplied when purchasing iPod/iPhone product.) will charge the iPod through the system.
- The use of genuine iPod cables supplied by Apple is recommended. (The use of other products may result in noise or abnormal operation.)
- Within iPhones, streaming audio and iPod control may occasionally conflict. If problems persist, remove the iPhone and connect again.
- Use iPod with complete synchronization to iTunes. Unauthorized song addition may cause abnormal operation.
- If iPod and Bluetooth are connected simultaneously with the same iPhone, you cannot use Bluetooth audio function.
- If iPod touch or iPhone is used, iOS4.2 or more is recommended.

Supported iPod devices

iPhone5
iPhone4S
iPhone4
iPhone3GS
iPod Touch (1st through 5th generation)
iPod Nano
iPod Classic

Cautions upon using SD Cards

Ejecting and Inserting SD Cards

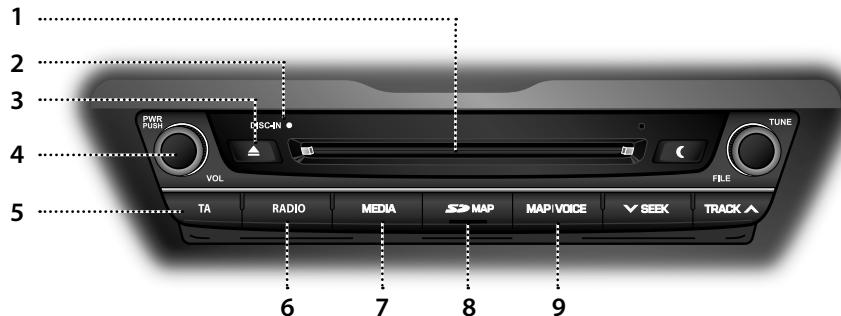

- Ejecting and inserting SD cards while the system is operating may result in SD Card or System errors. To eject or insert the SD card, first turn off the system and the vehicle ignition.
- Eject/insert SD cards only to update the map with a new version.
- When an SD Card with the new version is inserted, then the system will reboot automatically.

Usage of SD Cards

- The SD Card is formatted to include only Map and new Navi S/W.
- The SD Card cannot be used to save and play Music.
- Do not add, delete, or format files within the SD Card.

Name of each component

Head unit

1. Disc slot

Insert a disc into the disc slot.

2. DISC IN indicator light (DISC-IN)

When a disc is inserted, the indicator is illuminated.

3. Disc eject (▲) button

Press to insert or eject disc

4. • PWR PUSH button

- Power on

Press this button in power OFF status.

- Power off

Press and hold this button in power ON status.

• Volume control knob (VOL)

Turn left/right to control volume.

• Audio on/off button

Press this button to turn audio on or off in power on status.

5. TA button

Press the button to turn the TA function on or off.

6. RADIO button

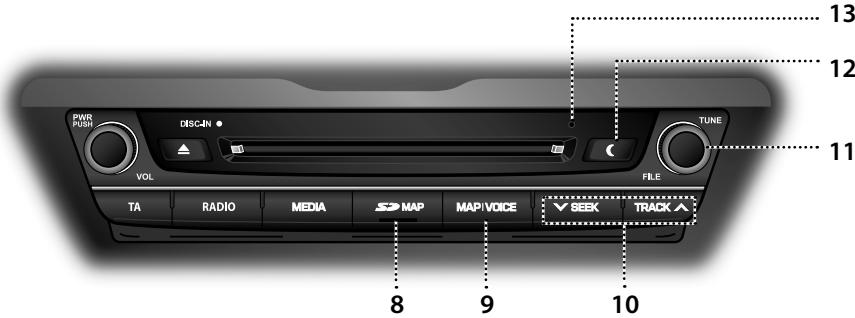

Converts to FM/AM/DAB mode.

Each time the button is pressed, the mode is changed in the order FM → AM → DAB → FM.

7. MEDIA button

Press this button to move to the [Media] menu in media playing screen. Press this button again to display the media playing screen.

Name of each component

8. Cover for protecting SD card (SD card insert slot)

Insert the SD card into the slot.

9. MAP/VOICE button

- Press to display the map screen of the current location when in a different mode.
- Press to repeat the voice guidance on the map screen.

10. VSEEK/TRACK[^] button

- When it is pressed shortly (less than 0.8 sec.)
- FM/AM/DAB mode: plays previous/next station.

- In MEDIA modes: changes the track, file, or chapter.

- When it is pressed and held (0.8 sec. or longer)

- FM/AM/DAB mode: changes continuously the station until the button is released
- In MEDIA modes: rewinds or fast forwards the track, file, or chapter.

11. TUNE/FILE button

- FM/AM mode: Turn to change the station.
- CD/DVD/VCD/Jukebox/USB/iPod mode: Turn to search for the desired track, file or chapter.

12. button

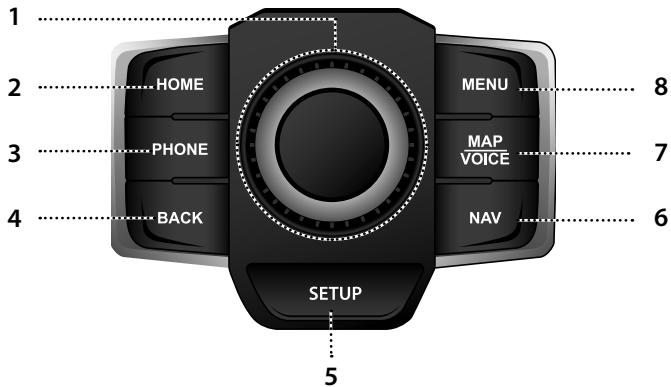

Press to turn the screen on or off.

13. RESET hole

Press with thin object to reset the unit when it does not operate normally.

Name of each component

Remote control for head unit

1. Controller

Moves or selects a menu through joystick way. For details, refer to the "Using the controller" on the page 22.

4. BACK button

Press to move to the previous screen.

2. HOME button

Press to move to the [HOME] menu screen.

3. PHONE button

Press to operate Bluetooth Hands-Free function.

5. SETUP button

Press to move to the [Settings] menu screen.

6. NAV button

Press to move to the [Navi] menu screen.

7. MAP VOICE button

- Press to display the map screen of the current location when in a different mode.
- Press to repeat the voice guidance on the map screen.

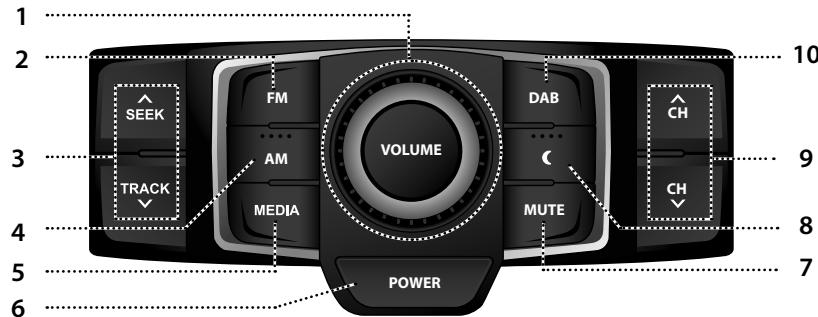

8. MENU button

Press to move to the pop-up menu in each mode.

Name of each component

Remote control for rear seat (Option) - (Only for EU)

The remote control for rear seat is an option for the customers who selected the option.

1. VOLUME button

Rotate to control volume.

- When it is pressed and held (0.8 sec. or longer)

- FM/AM/DAB mode: changes continuously the station until the button is released

- In MEDIA modes: rewinds or fast forwards the track, file, or chapter.

2. FM button

Selects the FM band.

3. ▲SEEK/TRACK▼ button

- When it is pressed shortly (less than 0.8 sec.)

- FM/AM/DAB mode: plays previous/next station.

- In MEDIA modes: changes the track, file, or chapter.

4. AM button

Selects the AM band.

5. MEDIA button

Press this button to toggle the connected media source.

6. POWER button

Press this button to turn AV on or off in power on status.

7. MUTE button

Press to mute the sound.

8. □ button

Press to turn the screen on or off.

9. ▲CH/CH▼ button

Selects the radio presets.

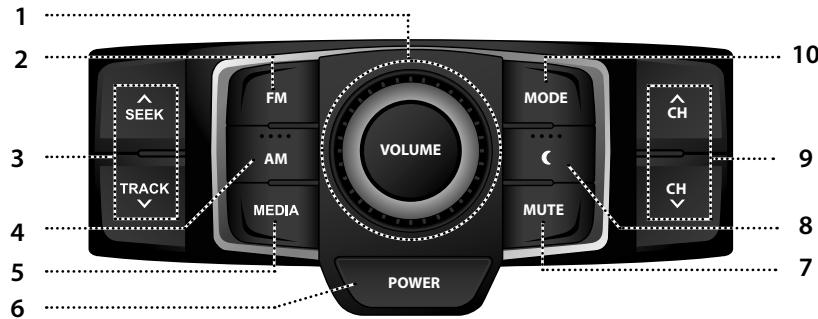

10. DAB button

Selects the DAB band.

Name of each component

Remote control for rear seat (Option) - (Only for RUSSIA)

The remote control for rear seat is an option for the customers who selected the option.

1. VOLUME button

Rotate to control volume.

- When it is pressed and held (0.8 sec. or longer)

- FM/AM/DAB mode: changes continuously the station until the button is released
- In MEDIA modes: rewinds or fast forwards the track, file, or chapter.

2. FM button

Selects the FM band.

- When it is pressed shortly (less than 0.8 sec.)

- FM/AM/DAB mode: plays previous/next station.
- In MEDIA modes: changes the track, file, or chapter.

3. ▲SEEK/TRACK▼ button

4. AM button

Selects the AM band.

1. Press [MENU] > [Caption Settings] on the menu display mode.

2. Set the desired caption.
 - [View Subtitle]: This function turns on or off the subtitle displayed on the screen.
 - [Caption Language]: Selects the desired caption language.
 - [Font Size]: This function adjusts the font size of the subtitle displayed on the screen.

Voice Settings

1. Press [MENU] > [Voice Settings] on the menu display mode.

2. Set the desired voice.

Display Settings

1. Press [MENU] > [Display Settings] on the menu display mode.
2. For details, refer to the "Display" on the page 109.

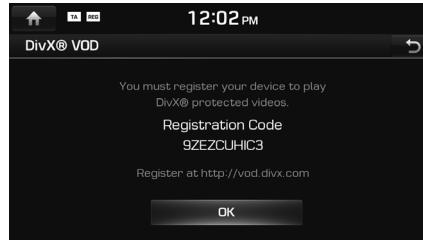

Sound Settings

1. Press [MENU] > [Sound Settings] on the menu display mode.
2. For details, refer to the "Sound" on the page 108.

DivX® VOD

You must register your device to play DivX® protected videos.

1. Press [MENU] > [DivX® VOD] on the menu display mode.

2. After checking the registration code, register at <http://vod.divx.com>.

Note

All the downloaded videos from DivX VOD with this registration code can only be played back on this device.

Jukebox Operation

Viewing Jukebox image

You can view the image files saved in Jukebox.

If there is no image file in Jukebox, copy the desired image to Jukebox. For details, refer to the "Copying the USB image file to Jukebox" on the page 50.

1. Press [HOME] > [Media].
2. Press [Jukebox Image].

The Jukebox Image is viewed.

! Note

If there is the image file in Jukebox, the [Jukebox Image] menu is activated on the screen.

Switching to Menu display or Full display

Position	Description
Screen	Press the screen.
Controller	Push the controller to the up or down on full display mode.

! Note

- If there is no operation for 5 seconds on menu display mode, it switches to full display mode.
- If you press [MENU] > [Full display] on menu display mode, it switches to full display mode.

Skip

You can view the previous or next image.

Position	Description
Screen	Press [$\blacktriangleleft\blacktriangleright$].
Controller	Push the controller to the left or right.

Zoom in/out

1. Turn the controller to the left or right.

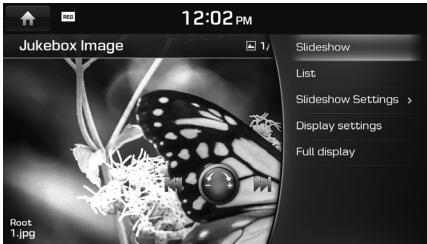

2. Push the controller to the up, down, left or right to move the image.

Jukebox Operation

Slideshow

1. Press [MENU] > [Slideshow] on the menu display mode.

The slideshow is played.

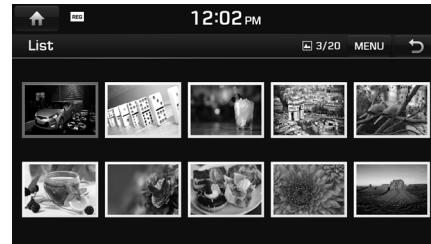

2. Press the controller to stop the slideshow.

List

You can view the desired image by searching for image list included in Jukebox.

1. Press [List].

Or press [MENU] > [List] on the menu display mode.

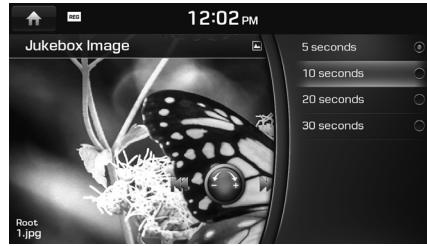

2. Press the desired image.

- Press [MENU] > [Now Playing] to move to the current playing screen.
- Press [MENU] > [Delete] to delete the selected file.
- Press [MENU] > [Clear Jukebox] to delete all files and playlists in Jukebox.
- Press [MENU] > [Storage Capacity] to check the storage capacity saved in Jukebox.

Slideshow Settings

You can set the slideshow interval. The slideshow is played according to the time interval.

1. Press [MENU] > [Slideshow Settings] on the menu display mode.

2. Press the desired slideshow interval.

Display Settings

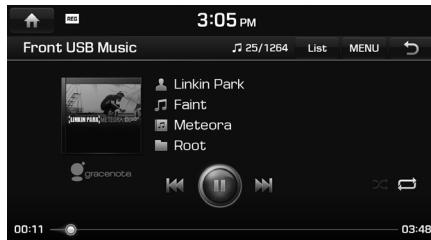

1. Press [MENU] > [Display Settings] on the menu display mode.
2. For details, refer to the "Display" on the page 109.

USB Operation

Playing USB music

You can play music files saved in a USB memory device.

Connect a USB device to the USB port and playback starts automatically.

Note

If you want to play the USB music files when playing other source with the USB device connected, press [HOME] > [Media] > [USB Music], [Front USB Music] or [Rear USB Music].

Pause

You can pause the playing file.

For details, refer to the "Pause" on the page 30.

Skip

You can play the previous or next file.

For details, refer to the "Skip" on the page 30.

Search

You can search for the previous or next file quickly.

For details, refer to the "Search" on the page 30.

Seek

You can play the file directly by searching for the desired file.

For details, refer to the "Seek" on the page 31.

Cover Flow View

You can play the desired album by searching for the cover flow in USB.

1. Press [MENU] > [Cover Flow View].

2. Press the desired album.

- Press [MENU] > [View Default Player] to move to the current playing screen.

- Press [MENU] > [List] to move to the list menu.

- Press [MENU] > [Shuffle] to set the Shuffle function.

- Press [MENU] > [Repeat] to set the Repeat function.

- Press [MENU] > [Copy to Jukebox] to copy the desired files to Jukebox. For details, refer to the "Copying the USB music file to Jukebox" on the page 47.

- Press [MENU] > [Scan] to set the Scan function.

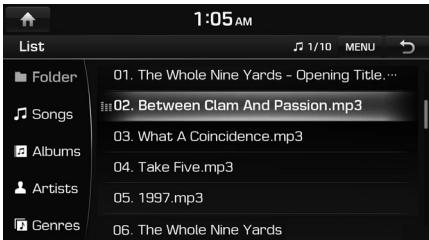

- Press [MENU] > [Sound Settings] to set the sound.

USB Operation

List

You can play the desired file by searching for file list included in USB.

1. Press [List].
Or press [MENU] > [List].

2. Press the desired file after searching for folder, songs, albums, artists or genres.
 - Press [MENU] > [Now Playing] to move to the current playing screen.
 - Press [MENU] > [Copy to Jukebox] to copy the desired files to Jukebox.

Shuffle

All files are played randomly.

For details, refer to the "Shuffle" on the page 31.

Repeat

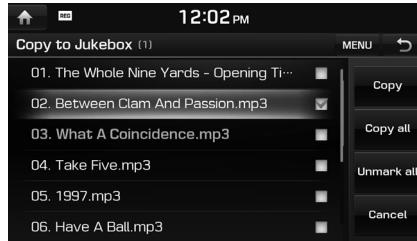

The current playing file is played repeatedly.

For details, refer to the "Repeat" on the page 41.

Copying the USB music file to Jukebox

You can copy the desired files to Jukebox.

1. Press [MENU] > [Copy to Jukebox].

2. Select the desired file, then press [Copy].
 - [Copy]: Copies the selected file.
 - [Copy all]: Copies all the files.
 - [Unmark all]: Unmarks all the files.
 - [Cancel]: Cancels the copy function.

Scan

This function scans the beginning parts of each files for 10 seconds.

For details, refer to the MP3 CD operation of "Scan" on the page 32.

Sound Settings

1. Press [MENU] > [Sound Settings].
2. For details, refer to the "Sound" on the page 108.

USB Operation

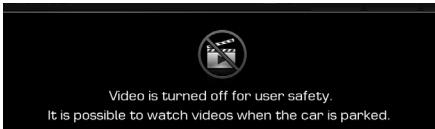

Playing USB video

You can play video files saved in a USB memory device.

Connect a USB device to the USB port and playback starts automatically.

Note

- If you want to play the USB video files when playing other source with the USB device connected, press [HOME] > [Media] > [USB Video], [Front USB Video] or [Rear USB Video].
- Video is not available while driving.
(Based on the traffic regulation, Video is only available whenever vehicle is in stop condition with parking gear.)

Switching to Menu display or Full display

Position	Description
Screen	Press the screen.
Controller	Push the controller to the up or down on full display mode.

Note

- If there is no operation for 5 seconds on menu display mode, it switches to full display mode.
- If you press [MENU] > [Full display] on menu display mode, it switches to full display mode.

Pause

You can pause the playing file.

For details, refer to the "Pause" on the page 30.

Skip

You can play the previous or next file.

For details, refer to the "Skip" on the page 30.

Search

You can search for the previous or next file quickly.

For details, refer to the "Search" on the page 30.

Seek

You can play the file directly by searching for the desired file.

For details, refer to the "Seek" on the page 31.

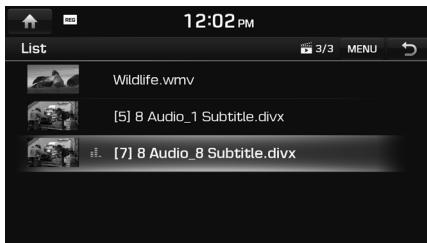

USB Operation

List

You can play the desired file by searching for file list included in USB.

1. Press [List].

Or press [MENU] > [List].

2. Press the desired file.

- Press [MENU] > [Now Playing] to move to the current playing screen.
- Press [MENU] > [Copy to Jukebox] to copy the desired files to Jukebox.

Shuffle

All files are played randomly.

For details, refer to the "Shuffle" on the page 31.

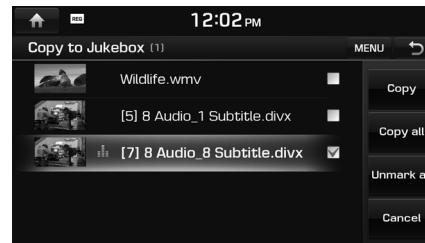

Repeat

The current playing file is played repeatedly. For details, refer to the "Repeat" on the page 41.

Copying the USB video file to Jukebox

You can copy the desired files to Jukebox.

1. Press [MENU] > [Copy to Jukebox].

2. Select the desired file, then press [Copy].

- [Copy]: Copies the selected file.
- [Copy all]: Copies all the files.
- [Unmark all]: Unmarks all the files.
- [Cancel]: Cancels the copy function.

Caption Settings

You can set the caption.

For details, refer to the "Caption Settings" on the page 43.

Voice Settings

You can set the voice.

For details, refer to the "DivX® VOD" on the page 43.

DivX® VOD

You must register your device to play DivX® protected videos.

For details, refer to the "DivX® VOD" on the page 43.

Display Settings

1. Press [MENU] > [Display Settings] on the menu display mode.
2. For details, refer to the "Display" on the page 109.

Sound Settings

1. Press [MENU] > [Sound Settings] on the menu display mode.
2. For details, refer to the "Sound" on the page 108.

USB Operation

Viewing USB image

You can play image files saved in a USB memory device.

Connect a USB device to the USB port and playback starts automatically.

Note

If you want to play the USB image files when playing other source with the USB device connected, press [HOME] > [Media] > [USB Image], [Front USB Image] or [Rear USB Image].

Switching to Menu display or Full display

Position	Description
Screen	Press the screen.
Controller	Push the controller to the up or down on full display mode.

Note

- If there is no operation for 5 seconds on menu display mode, it switches to full display mode.
- If you press [MENU] > [Full display] on menu display mode, it switches to full display mode.

Skip

You can view the previous or next image.

For details, refer to the "Skip" on the page 44.

Zoom in/out

Turn the controller to the left or right.

For details, refer to the "Zoom in/out" on the page 44.

Slideshow

You can set the slideshow.

For details, refer to the "Slideshow" on the page 45.

List

You can view the desired image by searching for image list included in USB.

For details, refer to the "List" on the page 45.

Slideshow Settings

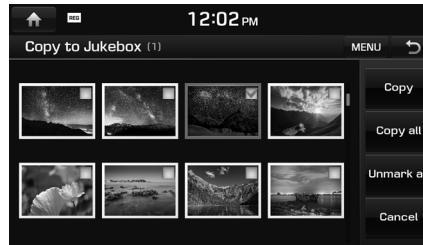

You can set the slideshow interval. The slideshow is played according to the time interval.

For details, refer to the "Slideshow Settings" on the page 45.

Copying the USB image file to Jukebox

You can copy the desired files to Jukebox.

1. Press [MENU] > [Copy to Jukebox].

2. Select the desired file, then press [Copy].

- [Copy]: Copies the selected file.
- [Copy all]: Copies all the files.
- [Unmark all]: Unmarks all the files.
- [Cancel]: Cancels the copy function.

Display Settings

1. Press [MENU] > [Display Settings] on the menu display mode.
2. For details, refer to the "Display" on the page 109.

iPod Operation

Playing iPod

Connect an iPod to the USB port by using the iPod cable and playback starts automatically.

Note

If you want to play the iPod when playing other source, press [HOME] > [Media] > [iPod], [Front iPod] or [Rear iPod].

Pause

You can pause the playing file. For details, refer to the "Pause" on the page 30.

Skip

You can play the previous or next file. For details, refer to the "Skip" on the page 30.

Search

You can search for the previous or next file quickly. For details, refer to the "Search" on the page 30.

Seek

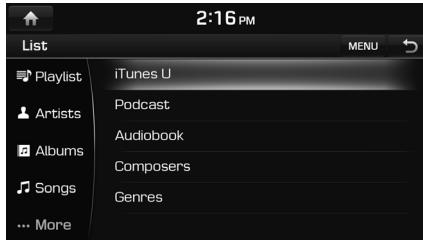

You can play the file directly by searching for the desired file. For details, refer to the "Seek" on the page 31.

List

You can play the desired file by searching for file list included in iPod.

1. Press [List].

Or press [MENU] > [List].

2. Press the desired file.

- Press [MENU] > [Now Playing] to move to the current playing screen.
- Press [MENU] > [Edit Category] to edit the category, then press the desired category. After moving to the desired category by turning the controller to the left or right, press the controller.

Shuffle

All files are played randomly.

For details, refer to the "Shuffle" on the page 31.

Repeat

The current playing file is played repeatedly.

1. Press [MENU] > [Repeat].

2. Press the desired item.

- [Repeat All]: Plays repeatedly all files.
- [Repeat One]: Plays repeatedly the current file.

Note

You can set or cancel the Repeat function by pressing [] / [] on the playing screen.

[]: Repeat All, []: Repeat One

Scan

This function scans the beginning parts of each files for 10 seconds. For details, refer to the MP3 CD operation of "Scan" on the page 32.

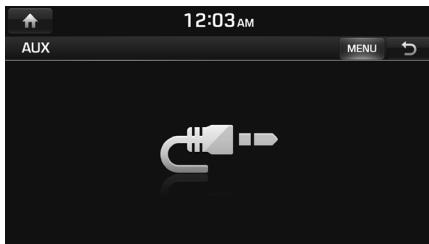

Sound Settings

1. Press [MENU] > [Sound Settings].
2. For details, refer to the "Sound" on the page 108.

Auxiliary device operation

Playing an AUX source

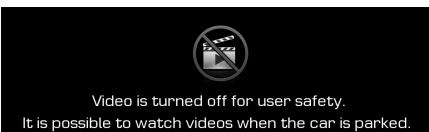

1. Connect an auxiliary device to the AUX terminal.

2. Play the auxiliary device.

! Note

- Some auxiliary devices that do not have the video source may not produce output to the video screen.
- If you want to play the auxiliary device when playing other source, press [HOME] > [Media] > [AUX].
- Video is not available while driving.
(Based on the traffic regulation, Aux Video is only available whenever vehicle is in stop condition with parking gear.)

Switching to Menu display or Full display during video playback

Position	Description
Screen	Press the screen.
Controller	Push the controller to the up or down on full display mode.

! Note

- If there is no operation for 5 seconds on menu display mode, it switches to full display mode.
- If you press [MENU] > [Full display] on menu display mode, it switches to full display mode.

Display Settings

1. Press [MENU] > [Display Settings] on the menu display mode during video playback.
2. For details, refer to the "Display" on the page 109.

Sound Settings

1. Press [MENU] > [Sound Settings].
2. For details, refer to the "Sound" on the page 108.

Bluetooth audio

Playing Bluetooth audio

Before playing the Bluetooth audio

- Music saved in the mobile phone can be played in the car through Bluetooth audio streaming.
- Bluetooth audio can be played only when a Bluetooth phone has been connected. To play Bluetooth audio, connect the Bluetooth phone to the car system. For more information on connecting Bluetooth, please refer to the user's manual [Pairing and connecting the unit and a Bluetooth phone] on the page 86.
- If the Bluetooth is disconnected while playing Bluetooth audio, the music is discontinued.
- The audio streaming function may not be supported in some mobile phones. Only one function can be used at a time between the Bluetooth handsfree or Bluetooth audio function. For example, if you convert to the Bluetooth handsfree while playing Bluetooth audio, the music is discontinued.
- Playing music from the car is not possible when there are no music files saved in the mobile phone.

Starting the Bluetooth audio

- Press [HOME] > [Media] > [Bluetooth audio].
- The Bluetooth audio screen is displayed.

Pause

Press [**▶||**] or controller during playback.

Press [**▶||**] or controller to play it again.

Note

This feature may not be supported in some Bluetooth devices.

Skip

You can play the previous or next file.

For details, refer to the "Skip" on the page 30.

Note

This feature may not be supported in some Bluetooth devices.

Sound Settings

- Press [MENU] > [Sound Settings].
- For details, refer to the "Sound" on the page 108.

Getting started with navigation

Precautions for safe driving

Please observe and comply with local traffic rules and regulations.

- For your safety, some features cannot be operated while driving for your safety. Features that cannot be operated will be disabled.
- The route displayed for destination guidance is a reference and the route guidance will take you to the vicinity of your destination. The highlighted route is not always; the shortest distance, the least congested, and in some cases might, not be the fastest route.
- Road, name, and POI information may not always been completely updated. Some places may not include up to date information.
- The car position mark does not always indicate your exact location. This system uses GPS information, various sensors, and road map data to display the current position. However, errors in displaying your location may occur if the satellite is transmitting inaccurate signals or two or less satellite signals can be received. Errors that occur in such conditions cannot be corrected.

- The position of the vehicle within the navigation may differ from your actual location depending on various reasons, including the satellite transmission state, vehicle state (driving location and conditions), etc. Additionally, the car position mark may differ from the actual position if the map data is different from the actual road landscape, such as changes due to the construction of new roads. If such differences occur, driving for a short period of time will automatically correct the position of the vehicle through map matching or GPS information.

What is GPS?

The Global Positioning System (GPS) is a satellite-based navigation system made up of a network of 24 satellites placed into orbit by the U.S. Department of Defense.

GPS was originally intended for military applications, but in the 1980s, the government made the system available for civilian use.

GPS works in any weather conditions, anywhere in the world, 24 hours a day.

There are no subscription fees or setup charges to use GPS.

About satellite signals

Your unit must acquire satellite signals to operate. If you are indoors, near tall buildings or trees, or in a parking garage, the unit cannot acquire satellite signal.

Acquiring satellite signals

Before the unit can determine your current position and navigate a route, you must do the following steps:

1. Go outside to an area free from tall obstructions.
2. Turn on the unit.

Acquiring satellite signals can take a few minutes.

Getting started with navigation

Operating Navigation Screen

The navigation system displays various information on the screen.

Map screen

1. Clock display

Displays current clock.

2. button

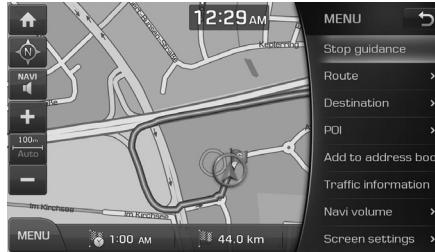

Press [] to move to [HOME] screen.

3. Map display

- Displays the direction of the map.

Press [], [] or [].

- (heading up (2D)): Displays always shows the vehicle's direction as proceeding towards the top of the screen.

4. Navigation voice guidance on/off

Turns the navigation voice guidance On/Off. Press [] or [].

5. button

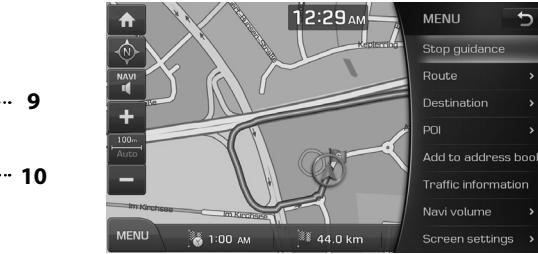

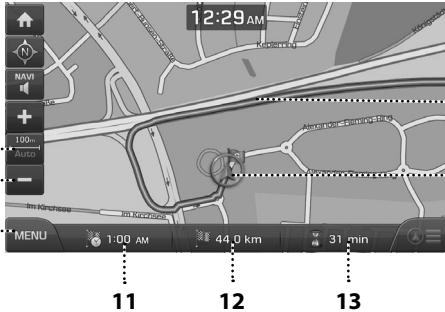

Zoom in the map. Press [] repeatedly.

GPS signal state display

Displays the state of GPS signal reception.

- Active - color : GPS reception is satisfactory.
- Inactive - gray : GPS reception is unsatisfactory.

Getting started with navigation

6. Map scale display

- Displays the current map scale.
- Sets the zoom level automatically to the guidance. For details, refer to the "Map scale" on the page 58.

7. [-] button

Zoom out the map. Press [-] repeatedly.

8. [MENU] button

Moves to quick menu screen. For details, refer to the "General operations of quick menu" on the page 63.

9. Route guidance display

Displays the route guidance to the destination when a route is set.

10. Vehicle position display

Displays current vehicle position and direction.

11. Arriving time display

Displays the arriving time to the destination. Press to check the destination information.

12. Remaining distance display

Displays the remaining distance to the destination. Press to check the destination information.

13. Remaining time display

Displays the remaining time to the destination. Press to check the destination information.

14. Stop/Resume guidance

Stops or resumes the route guidance to the destination.

15. [ROUTE] button

Changes the route conditions when a route is set. For details, refer to the "Changing the route conditions" on the page 58.

Getting started with navigation

16. [Destination] button

Moves to [Destination] menu.

17. [POI] button

Finds a POI (Point Of Interest) near current position, destination or route. For details, refer to the "Searching for POI" on the page 59.

18. [Add to address book] button

Adds frequently used address to [Address book] menu. For details, refer to the "Adding the position to address book" on the page 61.

19. [Traffic information] button

Displays the traffic information. For details, refer to the "Traffic information list" on the page 61.

20. [Navi volume] button

Adjusts the navigation volume. For details, refer to the "Navigation volume" on the page 62.

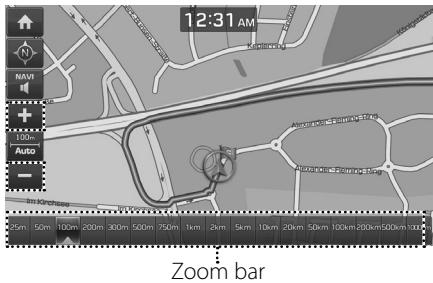

21. [Screen settings] button

Moves to [Screen settings] menu. For details, refer to the "Screen settings" on the page 62.

Getting started with navigation

Zoom In / Zoom Out

Press [+] or [-] to set the zoom level on the map screen.

Zoom bar

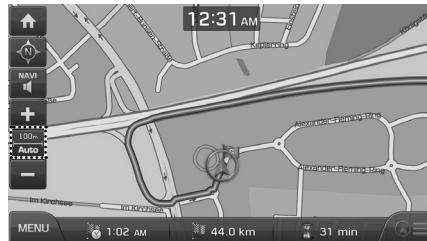

Note

- You can set the zoom level by directly pressing the zoom bar on the zoom bar.
- Press [+] or [-] for over 1 second. The zoom will continuously change.
- If the zoom range limit is reached, the [+] / [-] button will be disabled.
- If you want to set the auto zoom, press .

Map scale

This function sets the zoom level automatically according to the road class.

Press  on the map screen.

Name	Description
 Scale Fix (inactive - "Auto")	Fix the displayed scale.
 Auto Scale (active - "Auto")	Change the map scale automatically depending on the road class.

Changing the route conditions

You can set new route by searching for various route option when a route is set.

Route option

You can modify the route conditions or confirm the route information. Set the appropriate route condition according to your purpose. For details, refer to the "Route option" on the page 71.

Detour

You can select a detour distance to take a detour for that distance.

Press [Using map] to select a detour location on the map.

Avoid street

This allows you to search for new route by avoiding the selected street(s). For details, refer to the "Avoid street" on the page 73.

Plan tour

The plan tour allows you to travel through the searched routes by editing the current route. For details, refer to the "Plan tour" on the page 72.

Getting started with navigation

Route overview

You can check the entire route between your current location and your destination. For details, refer to the "Route overview" on the page 73.

Route scan

This allows you to check the detailed turn-by-turn list. For details, refer to the "Route scan" on the page 74.

Searching for POI

POI search

You can find a POI (Point Of Interest) near current position, destination, route, scroll mark or city centre.

1. Press [MENU] > [POI].

- Press [All POI category] to search for all the categories, then select the desired POI.

2. Select one of POI category.

- Press [MENU] > [Distance] to arrange the list in distance order.
- Press [MENU] > [Name] to arrange the list in name order.
- Press [MENU] > [Category] to arrange the list in category order.
- 3. Press the desired position.
 - [Near current position]: Search for POI's around the current position.
 - [Near destination]: Search for POI's around the destination when a route is set.
 - [Along route]: Search for POI's along route when a route is set.
 - [Near scroll mark]: Search for POI's around the current cursor when the map scrolled.
 - [Near city centre]: Search for POI's around the city selected.

4. Press the desired item.

5. Press [Set as destination].

When a route is set, press [Change destination].

- If you want to add a waypoint when a route is set, press [Add waypoint]. For details, refer to the "Adding waypoints" on the page 72.
- If you want to add the position to [Address book] menu, press [Add to address book]. For details, refer to the "Adding the position to address book" on the page 61.
- If you want to make a call, press [Call]. For details, refer to the "Making a call to POI" on the page 62.

Note

When you set the [Multiple routes], follow steps 6~7. Otherwise, drive in accordance with the screen and voice information.

Getting started with navigation

6. Press the desired route.

- [Fast]: Calculates the route based on the fastest arrival time.
- [Short]: Calculates the route based on the shortest distance.

7. Press [Start guidance].

- Press [Route option] to set the route option. For details, refer to the "Route option" on the page 71.

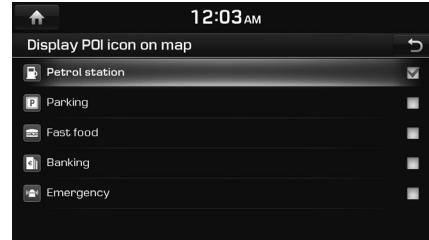

- Press [Route scan] to scan the scan. For details, refer to the "Route scan" on the page 74.
- Press [Route information] to view the route information. For details, refer to the "Route information" on the page 73.

Note

The destination is saved in the [Previous points] menu automatically. (Page 66)

Displaying/Hiding POI icons on the map screen

1. Press [MENU] > [POI] > [Display POI icon on map].

2. Mark or unmark the desired POI.

The map icon is displayed on the right of POI menu screen.

Editing POI category

You can edit the POI category displayed on POI menu screen.

1. Press [MENU] > [POI] > [Edit POI category].

2. Select the POI to edit.

3. Select the the desired POI.

The selected POI appears on POI menu screen.

Getting started with navigation

Adding the position to address book

You can add the current position or the selected place to address book.

1. Press [MENU] > [Add to address book].

2. Input the name.
3. Press [] to finish.

Note

Press [MENU] > [Destination] > [Address book] to check the added position.

Scrolling map

1. Press and drag the map area on the screen. The selected point will be centred on the screen and the scroll mark will be displayed.

Information about the marked point and straight line distance from the current position will be displayed at the centre of the screen.

2. Press [MENU].
3. Follow the steps 5~7 of the "POI search" on the page 59.

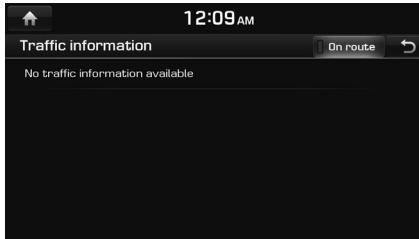

Note

If a map area on the map screen is pressed, the map will continuously scroll in the corresponding direction until the pressing is released.

Traffic information list

The current traffic/road event information is basically displayed on the traffic information list.

1. Press [MENU] > [Traffic information].

2. Press [On route] to display the traffic information on route.

Note

This feature may not be reflected depending on condition.

Getting started with navigation

Navigation volume

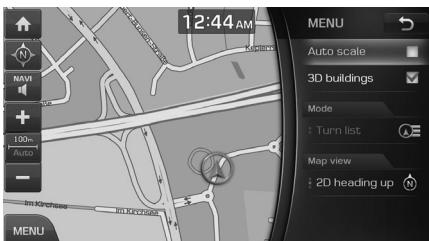

Press [MENU] > [Navi volume] to adjust the volume.

- [Volume]: Adjusts the navigation volume.
- [Mute]: Sets the sound to mute.
- [Audio priority]: Sets the volume control to [Navigation priority] or [Equal priority].

Screen settings

Press [MENU] > [Screen settings] to set the screen.

- Press [Auto scale] to set the map scale automatically depending on the road class.
- Press [3D buildings] to display the 3D building screen.
- Press [Turn list] to display the turn list.
- [Map view]: Sets the map screen to [2D heading up], [3D] or [2D north up].

Making a call to POI

After searching for a POI, the POI phone number information can be used to make a call to the POI facility.

1. Use the various search methods, such as the map scroll function, POI search function, and destination search function to search for a POI.

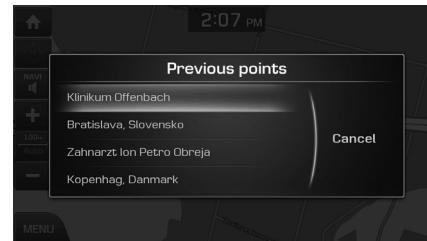

2. Press [Call] on the menu screen.
3. Bluetooth is used to make a call to the POI facility.

Note

- Making a call is not possible if there is no telephone information for a POI or if there is no mobile phone connected through Bluetooth.
- For more information of mobile phone authentication through Bluetooth or detailed information on conducting search, refer to [Pairing and connecting the unit and a Bluetooth phone], page 86.

Previous points view

When starting the navigation, the "Previous points" pop-up appears for about 10 seconds. The pop-up is displayed only when the navigation is started without the route planned. Press one of the list.

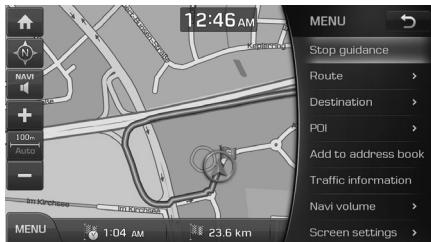

Note

Press [HOME] > [Settings] > [Navigation] > [General] > [Show previous points] to set the previous points view.

Getting started with navigation

General operations of quick menu

1. Press [MENU] on the map screen.
Or press [MENU] on the remote control for head unit on the map screen.

2. Press the preferred setting method.
 - [Stop guidance]/[Resume guidance]: Stops or resumes the route guidance. (Page 71)
 - [Route]: Changes the route conditions by using the [Route] menu when the route is activated. (Page 71)
 - [Destination]: Finds a destination by using the [Destination] menu. (Pages 64~70)
 - [POI]: Finds a destination by searching for POI. (Page 59)

- [Add to address book]: Adds the position to [Address book] menu. (Page 60)
- [Traffic information]: Shows the traffic information list. (Page 61)
- [Navi volume]: Adjusts the navigation volume. (Page 62)
- [Screen settings]: Sets items related with screen. (Page 62)

General operations of [Navi] menu

1. Press [NAV] on the remote control for head unit.

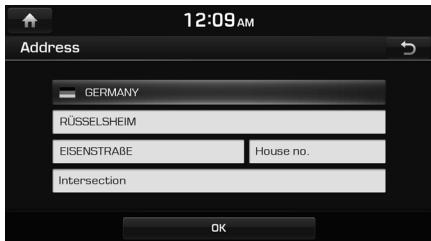

2. Press the preferred setting method.
 - [Destination]: Finds a destination by using the [Destination] menu. (Pages 64~70)
 - [Route]: Changes the route conditions by using the [Route] menu when the route is activated. (Page 71)
 - [Favourite]: Sets the route to your home, location or Favourite locations by using the [Favourite] menu. (Page 70)
 - [Navigation settings]: Sets items related with navigation. (Page 106)

Searching for destination of navigation

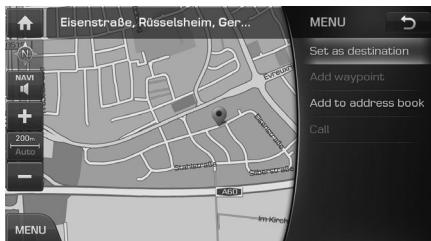

Address Search

You can find the destination by searching for an address.

1. Press [MENU] or [NAV] > [Destination] > [Address].

2. Enter the name of the country, city, street, house number or intersection corresponding to the desired destination.

3. Press [Set as destination].

When a route is set, press [Change destination].

- If you want to add a waypoint when a route is set, press [Add waypoint]. For details, refer to the "Adding waypoints" on the page 72.
- If you want to add the position to [Address book] menu, press [Add to address book]. For details, refer to the "Adding the position to address book" on the page 61.
- If you want to make a call, press [Call]. For details, refer to the "Making a call to POI" on the page 62.

Note

When you set the [Multiple routes], follow steps 4~5. Otherwise, drive in accordance with the screen and voice information.

4. Press the desired route.

- [Fast]: Calculates the route based on the fastest arrival time.
- [Short]: Calculates the route based on the shortest distance.

Searching for destination of navigation

5. Press [Start guidance].

- Press [Route option] to set the route option. For details, refer to the "Route option" on the page 71.
- Press [Route scan] to scan the scan. For details, refer to the "Route scan" on the page 74.
- Press [Route information] to view the route information. For details, refer to the "Route information" on the page 73.

Note

The destination is saved in the [Previous points] menu automatically. (Page 66)

POI

You can find a destination from various categories.

There are 3 ways to set the destination through POI search - by category, by name, by phone number.

Searching for POI by category

1. Press [NAV] > [Destination] > [POI] > [POI category].

If you want to search for the POI category by name, press [MENU] > [Search]. Input the name, then press [Q] to finish.

2. Follow the steps 2~7 of the "POI search" on the page 59.

Searching for POI by name

1. Press [MENU]> [Destination] > [POI name]. Or press [NAV] > [Destination] > [POI] > [POI name].

Service phone number

1. Press [NAV] > [Destination] > [Hyundai service] > [Service phone number].

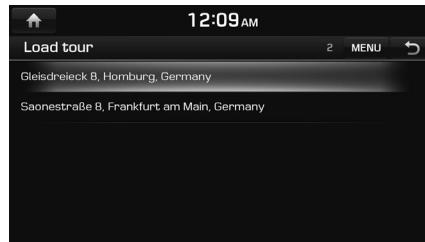

2. Input the desired phone number and press [**Q**.]
 - Press [MENU] > [Distance] to arrange the list in distance order.
 - Press [MENU] > [Phone no.] to arrange the list in phone number order.
 - Press [MENU] > [Category] to arrange the list in category order.
3. Follow the steps 3-5 of the "Address Search" on the page 64.

Load tour

You can find the destination to a location saved in the [Load tour] menu. To utilize this function more effectively, destinations that you often travel to should be saved in advance.

First of all, store in the [Load tour] menu through route search function. For details, Refer to the "Plan tour" on the page 72.

1. Press [NAV] > [Destination] > [Load tour].

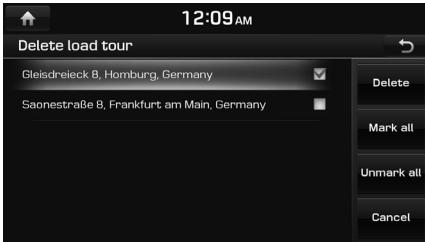

- Press [MENU] > [Name] or [Date] to arrange the list in name or date order.
2. Select the desired item.
 3. Press [OK] > [Start guidance].

Searching for destination of navigation

Deleting load tour

1. Press [NAV] > [Destination] > [Load tour].
2. Press [MENU] > [Delete].

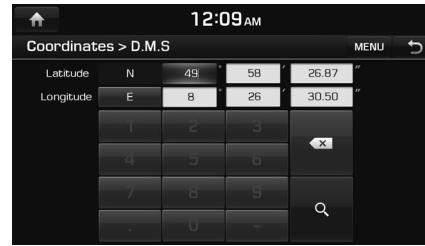

3. Select the desired item, then press [Delete].
 - [Delete]: Deletes the selected items.
 - [Mark all]: Marks all the items.
 - [Unmark all]: Unmarks all the items.
 - [Cancel]: Cancels the delete function.

Coordinates

You can find a destination by inputting the coordinates of latitude and longitude.

1. Press [NAV] > [Destination] > [Coordinates].

2. Press the degree, minute and (or) second of the longitude and latitude, then input the desired coordinates.
3. Press [Q].
4. Follow the steps 3-5 of the "Address Search" on the page 64.

Searching for destination of navigation

Home, Office, Favourite (1~6)

If your home location, office location, and Favourite locations have been already saved in the [Favourite] menu, it can be easily retrieved to set the route to your home location, office location and Favourite locations.

First of all, store in the [Favourite] menu through destination search function.

Registering Home, Office, or Favourite (1~6)

1. Press [NAV] > [Favourite].

2. Press [Home], [Office], or [Favourite (1~6)].
3. Select the desired position through destination search function.
4. Press [OK] when the destination search is complete.

5. Input the desired name and press [**OK**].

It is saved in the [Favourite] menu automatically.

! Note

Press [MENU] or [NAV] > [Destination] > [Address book] on the map screen to check items saved in the [Favourite] menu.

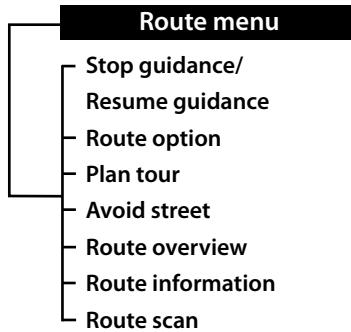

Finding your Home, Office, or Favourite place

1. Press [NAV] > [Favourite] > [Home], [Office], or favourite place.
2. Follow the steps 4-5 of the "Address Search" on the page 64.

Using the route menu

Route menu overview

This allows you to change the route conditions by using the route menu when the route is activated.

Stop guidance/ Resume guidance

If you want to stop the route guidance when a route is active, press [MENU] > [Stop guidance] or press [NAV] > [Route] > [Stop guidance].

If you want to continue travelling to your destination, press [MENU] > [Resume guidance] or press [NAV] > [Route] > [Resume guidance].

Route option

You can modify the route conditions or confirm the route information. Set the appropriate route condition according to your purpose.

1. Press [NAV] or [MENU] > [Route] > [Route option].

2. Set the desired options.

- Route
 - [Fast]: Calculates the route based on the fastest arrival time.
 - [Short]: Calculates the route based on the shortest distance.
- Traffic
 - [On]: Calculates the route based on the traffic information.
 - [Off]: Calculates the route that does not take into account the traffic information.

- [Auto]: Calculates the route automatically based on the system.

- Main road, Ferry, Toll road, Vignette, Time restricted, Tunnel

- [Use]: Calculates the route including the Main road, Ferry, Toll road, Vignette, Time restricted or Tunnel.

- [Avoid]: Calculates the route avoiding the Main road, Ferry, Toll road, Vignette, Time restricted or Tunnel.

3. Set the desired options and press [OK] to finish.

Note

The items set by user may not be reflected depending on condition.

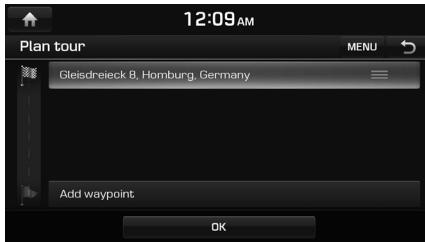

Using the route menu

Plan tour

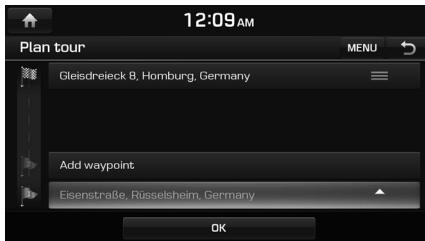

The plan tour allows you to travel through the searched routes by editing the current route. Waypoints can be added/deleted/edited and the order can be changed.

Adding waypoints

1. Press [NAV] > [Route] > [Plan tour].

2. Press [Add waypoint].
3. Add the waypoint through destination search function.

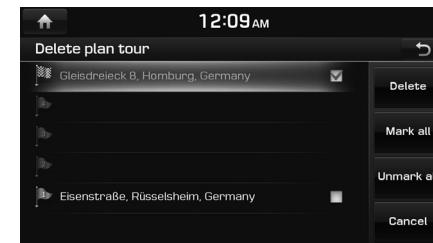

4. If you want to add an waypoint, follow steps 2~3.
5. Press [OK] > [Start guidance].

Reordering plan tour

1. Press [NAV] > [Route] > [Plan tour].
2. Press the desired item from the list.
3. Move the selected item up and down. Or Drag it to the desired position.
4. Press [OK] > [Start guidance].

Deleting plan tour

1. Press [NAV] > [Route] > [Plan tour].
2. Press [MENU] > [Delete].

3. Select the desired item, then press [Delete].
 - [Delete]: Deletes the selected items.
 - [Mark all]: Marks all the items.
 - [Unmark all]: Unmarks all the items.
 - [Cancel]: Cancels the delete function.

Saving the plan tour in the [Load tour] menu

If the plan tour have been already saved in the [Load tour] menu, it can be easily retrieved to set the route.

1. Press [NAV] > [Route] > [Plan tour].
2. Press [MENU] > [Save].

3. Input the tour name and press [OK].

It is saved in the [Load tour] menu automatically.

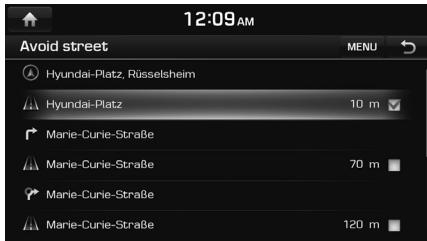

Using the route menu

Avoid street

This allows you to search for new route by avoiding the selected street(s).

This allows you to avoid certain streets due to traffic conditions. You can calculate an alternative route from the vehicle location to the destination.

1. Press [NAV] or [MENU] > [Route] > [Avoid street].

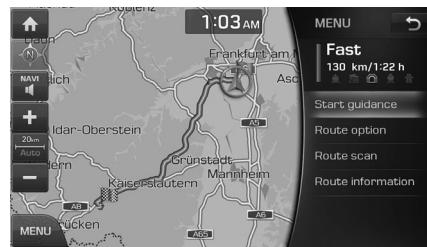

2. Press the street(s) that you want to avoid.
3. Press [MENU] > [OK].
If you want to cancel it, press [MENU] > [Unmark all].
4. Press [New] > [Start guidance].

Route overview

You can check the entire route between your current location and your destination.

1. Press [NAV] > [Route] > [Route overview].

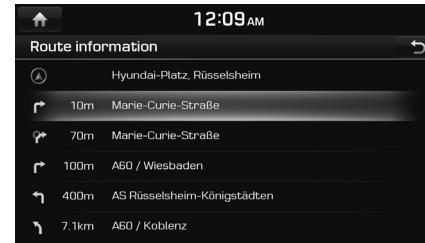

2. Press the desired item.
 - [Start guidance]: Starts the route guidance.
 - [Route option]: Sets the route option. (Page 71)
 - [Route scan]: Checks the detailed turn-by-turn list. (Page 74)
 - [Route information]: Press [Route information] to view the route information. (Page 73)

Route information

This allows you to view the distance to the next guide point and the turning direction at that guide point.

1. Press [NAV] > [Route] > [Route information].

2. Select the desired item to check the map information.

Using the route menu

Route scan

This allows you to check the detailed turn-by-turn list.

1. Press [NAV] > [Route] > [Route scan].

2. Press the desired item.
 - [S]: Move to the departure location.
 - [◀]: Move to the previous maneuver.
 - [▶]: Move to the next maneuver.
 - [D]: Move to the destination location.
 - [Quick move]: Quick move to the specific position.
 - [X]: Close the route scan.

END USER LICENSE AGREEMENT

PLEASE READ THIS END USER LICENSE AGREEMENT ("EULA") CAREFULLY BEFORE USING THE NAVIGATION SYSTEM.

This is a license agreement between you and Hyundai MnSoft, INC. including its affiliates ("COMPANY") regarding a copy of the COMPANY navigable map database together with associated software, media and explanatory printed documentation published by COMPANY(jointly the "Product"). The Product is provided for your personal, internal use only and not for resale. It is protected by copyright and is subject to the following terms which are agreed to by you, on the one hand, and COMPANY and its licensors (and their licensors and suppliers) (collectively, "Licensors") on the other hand.

By using the Product, you accept and agree to all terms and conditions in this End User License Agreement ("EULA"). IF YOU DO NOT AGREE TO THE TERMS OF THIS EULA, YOU MUST PROMPTLY EXIT THE PRODUCT OPERATION PROGRAM AND DO NOT USE OR ACCESS TO THE PRODUCT. You agree that your rights under this eula may be terminated automatically without notice if you fail to comply with any term(s) of thIS EULA.

Terms and Conditions

Personal Use Only. You agree to use this Product together with COMPANY's authorized application for the solely personal, non-commercial purposes for which you were licensed, and not for service bureau, time-sharing or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, you agree not to otherwise reproduce, copy, modify, decompile, disassemble, create any derivative works of, or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. You may not assign this EULA or any of the rights or licenses granted under this EULA, except when installed in the system for which it was created.

Restrictions. Except where you have been specifically licensed to do so by COMPANY, and without limiting the preceding paragraph, you may not use the Product (i) with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (ii) with or in communication with any positioning devices or any mobile or wireless-connected electronic or computer devices, including without limitation cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

COPYING OR USE OF THE PRODUCT EXCEPT AS PERMITTED BY THIS EULA IS UNAUTHORIZED AND IS COPYRIGHT INFRINGEMENT UNDER THE LAWS OF YOUR COUNTRY. IF YOU COPY OR USE THE PRODUCT WITHOUT COMPANY'S PERMISSION, EXCEPT AS PERMITTED BY THIS EULA, YOU ARE VIOLATING THE LAW AND LIABLE TO COMPANY AND ITS LICENSORS FOR DAMAGES, AND YOU MAY BE SUBJECT TO CRIMINAL PENALTIES.

THE PRODUCT MAY INCLUDE ENFORCEMENT TECHNOLOGY DESIGNED TO PREVENT (i) UNAUTHORIZED COPYING OF THE PRODUCT ONTO PHYSICAL STORAGE MEDIA OR VIA TRANSFER OVER THE INTERNET OR OTHER ELECTRONIC COMMUNICATION MEANS AND/OR (ii) ILLEGAL USAGE OF THE PRODUCT OTHER THAN BY A SPECIFICALLY AUTHORIZED DEVICE. YOU AGREE THAT COMPANY MAY USE THESE MEASURES TO PROTECT COMPANY AND THE LICENSORS AGAINST COPYRIGHT INFRINGEMENT.

Uploads. The Product may provide functionality through which you are able to upload certain information about your use of the Product (collectively, "Uploads") to COMPANY's servers or receive other services from COMPANY (collectively, the "Services"). If you use such functionality, you authorize COMPANY to retain your Uploads on its servers. COMPANY will have no obligation to provide any Services, may change the form and nature of any Services at any time with or without notice to you, will have no liability whatsoever to you for any failure of the Product or Services to transmit your Uploads to or from COMPANY's servers, may cease providing any Services at any time with or without notice to you, and will have no obligation to retain your Uploads (or any other materials you may provide to COMPANY) on its servers or return your Uploads (or any other materials you may provide to COMPANY) to you before deleting them from its servers.

Storage. The Product may provide functionality through which you are able to store information (such as images) on the device on which you are using the Product. COMPANY will have no liability whatsoever to you or any third party for any failure of the Product to store any such information on such device.

Personal Information. By using the Product, you agree to the collection, retention and processing of your personal data (including the location of your mobile device) by COMPANY and to the storage and processing of such personal information on computers located outside of the country in which you reside. Even though COMPANY has taken steps intended to protect your personal information from being intercepted, accessed, used, or disclosed by unauthorized persons, COMPANY cannot fully eliminate security risks associated with your personal information and cannot guarantee that its systems will not be breached. See [*] for additional information regarding COMPANY's use of your personal information.

Warning. The Product reflects reality as existing before you received the product and it comprises data and information from government other sources. accordingly, the product may contain inaccurate or incomplete information due to the passage of time, changing circumstances, sources used and the nature of collecting comprehensive geographic product, any of which may lead to incorrect results. THE PRODUCT AND SERVICES MAY NOT TO BE USED FOR SAFETY OF LIFE APPLICATIONS, OR FOR ANY OTHER APPLICATION IN WHICH THE ACCURACY OR RELIABILITY OF THE PRODUCT OR SERVICES COULD CREATE A SITUATION WHERE PERSONAL INJURY OR DEATH MAY OCCUR. DO NOT ATTEMPT TO CONFIGURE THE PRODUCT OR INPUT INFORMATION WHILE DRIVING. FAILURE TO PAY FULL ATTENTION TO THE OPERATION OF YOUR VEHICLE COULD RESULT IN DEATH, SERIOUS INJURY, OR PROPERTY DAMAGE. BY USING THE PRODUCT, YOU ASSUME ALL RESPONSIBILITY AND RISK.

Disclaimer of Warranty. The Product is provided to you "as is," and you agree to use it at your own risk. SUBJECT TO THE APPLICABLE LAWS, COMPANY AND THE LICENSORS MAKE NO GUARANTEES, REPRESENTATIONS OR WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ARISING BY LAW OR OTHERWISE, INCLUDING BUT NOT LIMITED TO, content, QUALITY, accuracy, completeness, effectiveness, reliability, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, usefulness, use or results to be obtained from the Product, or that the Product or server will be uninterrupted or error-free, OR THAT ERRORS IN THE PRODUCT OR NONCONFORMITY TO ITS DOCUMENTATION CAN OR WILL BE CORRECTED. YOU ACKNOWLEDGE THAT THE PROVISIONS OF THIS SECTION ARE A MATERIAL INDUCEMENT AND CONSIDERATION TO COMPANY AND THE LICENSORS TO GRANT THE LICENSE CONTAINED IN THIS EULA AND TO PROVIDE YOU WITH ACCESS TO THE SERVICES.

Limitation of Liability: TO THE MAXIMUM EXTENT PERMITTED UNDER THE APPLICABLE LAWS, COMPANY AND THE LICENSORS SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, INCURRED BY YOU OR ANY THIRD PARTY WHICH MAY ARISE IN CONNECTION WITH OR RESULT FROM THE USE OR POSSESSION OF THE PRODUCT; OR FOR ANY LOSS OF DATA, PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THE PRODUCT, ANY DEFECT IN THE PRODUCT, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF COMPANY OR THE LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING THE FAILURE OF ANY LIMITED REMEDY PROVIDED HEREIN.

Exclusions. Some jurisdictions do not allow certain warranty exclusions or the limitation or exclusion of liability, so to that extent the above exclusion may not apply to you. To the extent that COMPANY may not, as a matter of applicable law, disclaim any implied warranty or limit its liabilities, the scope and duration of such warranty and the extent of COMPANY's liability shall be the minimum permitted under such applicable law. The disclaimer of warranty and limitation of liability set forth in this EULA does not affect or prejudice your statutory rights where you have acquired the Product otherwise than in the course of business.

Third-Party Copyright Notices. The third-party sourced data has been incorporated into or made a part of the Product and is being sublicensed to you subject to the terms and conditions of this EULA. In this regard, you shall not remove or tamper with any intellectual property rights notice attached or used in relation to data supplied by the Licensors.

Entire Agreement. This EULA is the entire agreement between COMPANY (and the Licensors) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all previous written or oral communications or documents (including, if you are obtaining an update, any agreement that may have been included with an earlier version of the Product) with respect to such subject matter.

Governing Law. This EULA shall be governed by the laws of the jurisdiction in which you reside at the date of acquisition of the Product. Should you at that moment reside outside the European Union or Switzerland, the law of the jurisdiction within the European Union or Switzerland where you acquired the Product shall apply. In all other cases, or if the jurisdiction where you acquired the Product cannot be defined, the laws of the Republic of Korea shall apply. This EULA will not be governed by the U.N. Convention on Contracts for the International Sale of Goods. The courts competent at your place of residence at the time you acquired the Product shall have jurisdiction over any dispute arising out of, or relating to this EULA, without prejudice to COMPANY's right to bring claims at your then current place of residence.

Export Control. You agree not to export or re-export from anywhere any part of the Product in any form except in compliance with applicable export laws, rules and regulations, including but not limited to the laws, rules and regulations administered by the Office of Foreign Assets Control of the U.S. Department of Commerce and the Bureau of Industry and Security of the U.S. Department of Commerce.

Miscellaneous. If any provision of this EULA is found to be invalid or unenforceable, it will be enforced to the extent permissible and the remainder of this EULA will remain in full force and effect. Failure by COMPANY to prosecute any right with respect to a default hereunder will not constitute a waiver by COMPANY of the right to enforce rights with respect to the same or any other breach. No refunds or replacements will be permitted on damaged Product.

U.S. Government End Users. If the Product is being acquired by or on behalf of the United States Government or any other entity seeking or applying rights similar to those customarily claimed by the United States Government, this Product and related documentation are "Commercial Items" as that term is defined at 48 C.F.R. ("FAR") 2.101. This Product and related documentation are licensed to the United States Government end users (a) only as "Commercial Items" and (b) with only those rights as are granted to all other end users in accordance with this EULA, and each copy of Product delivered or otherwise furnished shall be marked and embedded as appropriate with the following "Notice of Use," and shall be treated in accordance with such Notice:

Notice of Use

Contractor (Manufacturer/ Supplier) Name: Hyundai MnSoft, Inc.

This Product and related documentation are commercial items as defined in FAR 2.101 and is subject to this EULA under which this Product is provided.

Map Update

At the System Info screen, insert the updated memory (SD card: Map, Activation file) with the latest file and then select the UPDATE button to begin updating. The system will then reboot automatically.

The system will then reboot automatically.

- This product needs supplemented software updates, additional new functions and renewed maps, which collectively may take some time to complete, depending on the amount of data.
- You can obtain recent maps, activation codes and new software from the importers. Update the system using the SD card.

CAUTION

If the power is disconnected or the SD card is removed during an update, data might be damaged. Please wait until the update is complete with the engine on.

Bluetooth® Wireless Technology

Before Using the Bluetooth Handsfree

What is Bluetooth Wireless Technology?

- Bluetooth Wireless Technology refers to a short-distance wireless networking technology which uses a 2.45GHz frequency to connect various devices within a certain distance.
- Supported within PCs, external devices, Bluetooth phones, PDAs, various electronic devices, and automotive environments, Bluetooth Wireless Technology to be transmitted at high speeds without having to use a connector cable.
- Bluetooth Handsfree refers to a device which allows the user to conveniently make phone calls with Bluetooth mobile phones through the system.
- The Bluetooth Handsfree feature may not be supported in some mobile phones.

Precautions for Safe Driving

- Bluetooth Handsfree is a feature that enables drivers to practice safe driving. Connecting the head unit with a Bluetooth phone allows the user to conveniently make calls, receive calls, and manage the phone book. Before using Bluetooth Wireless Technology, carefully read the contents of this user's manual.
- Excessive use or operations while driving may lead to negligent driving practices and be the cause of accidents. Do not operate the device excessively while driving.
- Viewing the screen for prolonged periods of time is dangerous and may lead to accidents. When driving, view the screen only for short periods of time.

Cautions upon Connecting Bluetooth Phone

- Before connecting the head unit with the mobile phone, check to see that the mobile phone supports Bluetooth features.
- If you do not want automatic connection with your Bluetooth device, turn the Bluetooth feature off of the Bluetooth device.

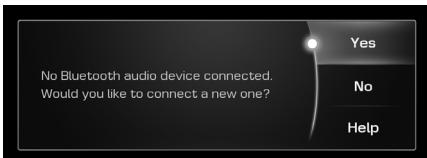

Bluetooth® Wireless Technology

Pairing and connecting the unit and a Bluetooth phone

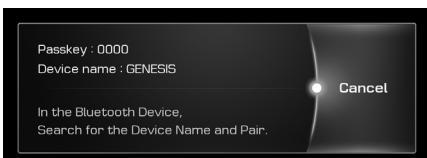

To use the Bluetooth feature, make sure the Bluetooth on your phone is turned on. Refer to your phone's user guide.

When no phones have been paired

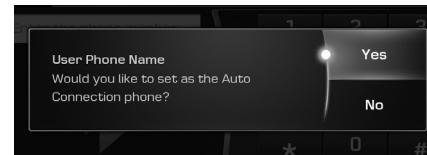

1. Press "PHONE" on the remote control for head unit or "📞" on the steering wheel remote control.
2. Press [Yes] to search for Bluetooth phones.

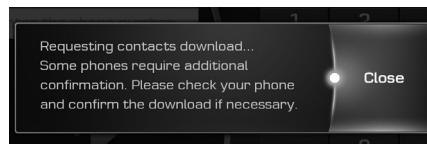

- [No]: Cancels Bluetooth connection.
- [Help]: Views the E-Manual related to pairing and connecting Bluetooth devices, and using Handsfree related features.

3. In your phone, initiate a search for Bluetooth devices. (The default device name is GENESIS.)
4. 1) If the SSP (Secure Simple Pairing) is not supported, input the passkey on your Bluetooth device. (The default passkey is 0000.)
2) If the SSP (Secure Simple Pairing) is supported, press [Yes] on the pop-up screen of your Bluetooth device. (The pop-up screen may differ from the actual information of the Bluetooth device.)
5. Press [Yes] to connect automatically the unit and a Bluetooth phone preferentially after ignition switch is in ON position.

When you approve in the mobile phone, the mobile phone contacts and the latest call list are downloaded.

6. When your phone is successfully connected, the phone screen is displayed on the screen. When the connection fails, failure message is displayed on the screen.

<Phone screen>

Once Bluetooth connection is successful, the name of the connected mobile phone will become displayed on the phone screen and Bluetooth handsfree functions will operate.

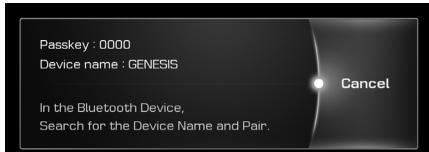

Bluetooth® Wireless Technology

When a phone is already paired

1. Press [HOME] > [Settings] > [Bluetooth] > [Bluetooth connection].

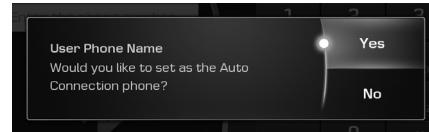

2. 1) Select the device you want to connect.
2) If there is no device you want to connect, press [New device].

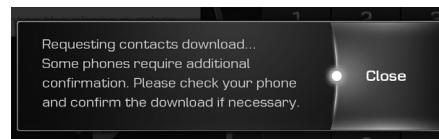

3. In your phone, initiate a search for Bluetooth devices. (The default device name is GENESIS.)
4. 1) If the SSP (Secure Simple Pairing) is not supported, input the passkey on your Bluetooth device. (The default passkey is 0000.)

2) If the SSP (Secure Simple Pairing) is supported, press [Yes] on the pop-up screen of the your Bluetooth device. (The pop-up screen may differ from the actual information of the Bluetooth device.)

5. Press [Yes] to connect automatically the unit and a Bluetooth phone preferentially after ignition switch is in ON position.

When you approve in the mobile phone, the mobile phone contacts and the latest call list are downloaded.

6. When your phone is successfully connected, the Bluetooth settings screen is displayed on the screen. When the connection fails, failure message is displayed on the screen.

<Bluetooth settings screen>

Note

- For safety reasons, pairing a Bluetooth phone is not possible when the vehicle is in motion. Park the vehicle in a safe location to pair a Bluetooth phone. It is possible to pair up to 5 mobile phones. In order to pair a new phone when there are already 5 mobile phones paired, you must first delete one of the previously paired phones.
- Some functions may not be supported due to limited Bluetooth compatibility between the car system and mobile phone.
- When a Bluetooth device is connected, new device cannot be paired. If you want to pair a new phone, first disconnect the connected Bluetooth device.

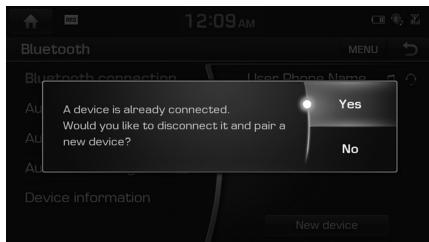

Bluetooth® Wireless Technology

Disconnecting the connected phone

1. Press [MENU] > [Connection settings] > [Bluetooth connection] on the phone screen.

2. Select the connected phone.

3. Press [YES].

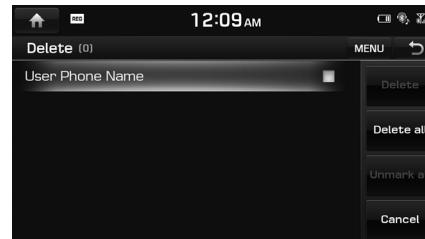

! Note

If you want to connect the disconnected phone again, select the disconnected phone.

Deleting Bluetooth Devices

If you no longer need to use a phone, you can delete the Bluetooth devices. Note that deleting a Bluetooth device will delete all call history and contact entries.

1. Press [MENU] > [Connection settings].
2. Press [MENU] > [Delete] on the Bluetooth settings screen.

3. Select the phone you want to delete and press [Delete].
 - [Delete all]: Deletes all the items.
 - [Unmark all]: Unmarks all the items.
 - [Cancel]: Cancels the delete function.
4. Press [Yes] on the pop-up screen.

Making a call by entering phone number

Connect your unit and Bluetooth phone before making a call.

1. Enter the phone number using the keypad on the phone screen.
2. Press [*C*] on the phone screen or "*C*" on the steering wheel remote control.

! Note

If you press the wrong number, press [*⬅*] to delete the inputted number one digit at a time.

Making a call by redialing

Press and hold [*C*] on the phone screen or "*C*" on the steering wheel remote control.

! Note

Redialing is not possible when there is no dialed call history.

Bluetooth® Wireless Technology

Making a call with speed dial numbers

Press and hold speed dial number using the keypad on the phone screen.

Only speed dial numbers already saved on the mobile phone can be used for speed dial calls. Up to 2-digit speed dial numbers are supported.

Note

For 2-digit speed dial numbers, press and hold the 2nd digit to make a call to the speed dial number.

Answering/Rejecting a call

1. If there is an incoming call, a popup message will appear.
2. Press [Accept] to answer the call.

To reject a call, select [Reject].

Note

- If the Call-ID service is available, the caller's phone number is displayed.
- If caller's phone number is saved in the phone book, the caller's name is displayed on the unit.
- Upon receiving a call, the [Reject] function may not be supported in some mobile phones.

Switching call to the mobile phone

1. If you want to switch the call to the mobile phone while talking on the car handsfree, press [Use priv.].

As shown below, the call is switched to the mobile phone.

2. If you want to switch the call to the car handsfree while talking on the mobile phone, press [Use Handsfree].

The call is switched to the car handsfree.

Ending a call

1. To end a call, press [End] on the phone screen or " " on the steering wheel remote control.
2. The call is ended.

Bluetooth® Wireless Technology

Using the menu during a phone call

When making a call, you can use the following menu items.

Position	Description
1 Contacts	Displays the Contacts list.
2 Mic volume	Displays the Mic Volume settings. You can adjust the in-call volume that the other party hears (level 1 - 5).
3 Mic On/Off	Turns the Mic On/Off.
4 Keypad	Moves to a screen for entering ARS numbers.

Call history

Making a call from call history

1. Press [6] on the phone screen.

2. Press [Received call], [Dialed call], or [Missed call].
 - [Received call]: Displays the incoming call history list.
 - [Dialed call]: Displays the outgoing call history list.
 - [Missed call]: Displays the missed call history list.
3. Press the entry you want to call.

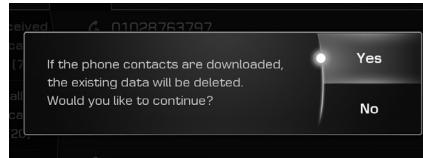

Note

The call history may not be saved in the call history list in some mobile phones.

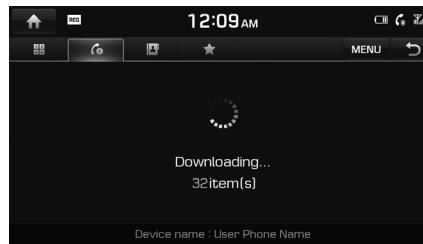

Downloading call history

You can download the call history information from your mobile phone.

1. Press [6] > [MENU] > [Download] on the phone screen.

2. Press [Yes].

Note

- Up to 20 received, dialled, and missed call history lists can be downloaded.
- The download feature may not be supported in some mobile phones. Check to see that the Bluetooth device supports the download feature.

Bluetooth® Wireless Technology

Deleting call history

You can delete the items that you select from your call history information.

1. Press [] > [MENU] > [Delete] on the phone screen.

2. Select the item you want to delete and press [Delete].
 - [Delete all]: Deletes all the items.
 - [Unmark all]: Unmarks all the items.
 - [Cancel]: Cancels the delete function.

Note

Press [] > [MENU] > [Clear Call History] on the phone screen to delete all the call history.

Contacts

1. Press [] on the phone screen.
The contacts is displayed on the screen.

<Contacts screen>

2. Select the contact you want to call from the list of contacts.

3. Press the phone number to make a call.

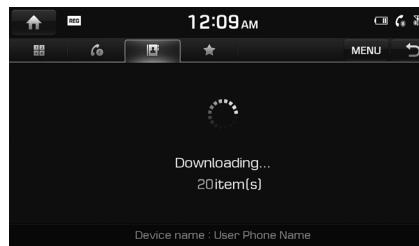

Downloading mobile phone contacts

Up to 5,000 mobile phone contacts can be downloaded.

1. Press [] > [MENU] > [Download] on the phone screen.

2. Press [Yes].

The present phone book is deleted and phone book of connected phone is duplicated.

Note

- Upon downloading mobile phone contacts, the previous data is deleted.
- This feature may not be supported in some mobile phones.

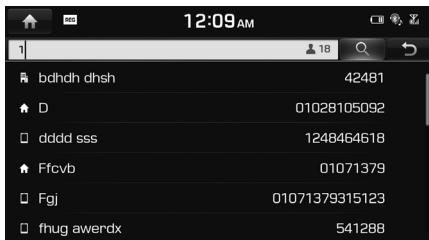

Bluetooth® Wireless Technology

Searching for contacts

1. Press [] > [MENU] > [Search Contacts] on the phone screen.

2. Enter the name or phone number, press [].

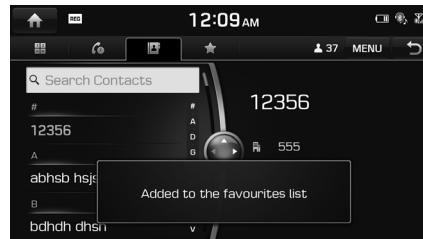

3. Select the contact you want to call.

Adding as a Favourite

1. Press [] on the phone screen.
The contacts is displayed on the screen.
2. Select the contact from the list of contacts.

3. Press [MENU] > [Add to Favourites] on the phone screen.

Note

Added favourites can be viewed by pressing [] in the phone screen.

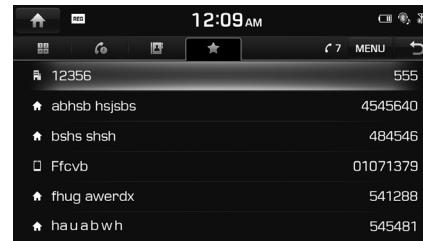

Favourites

Calling Favourites

If the phone number have been already stored in the Favourites, it can be easily called.

First of all, add the phone number in the Favourites. Refer to the "Adding as a Favourite" on the page 93.

1. Press [] on the phone screen.

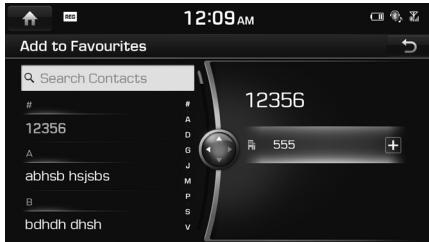

<Favourite screen>

2. Select the desired favourite.

Bluetooth® Wireless Technology

Adding as a Favourite

1. Press [★] on the phone screen.
2. Press [MENU] > [Add new] on the favourites screen.

3. Select the contact from the list of contacts.
4. Press the phone number.

Deleting favourites

1. Press [★] on the phone screen.
2. Press [MENU] > [Delete] on the favourites screen.

3. Select the item you want to delete and press [Delete].
 - [Delete all]: Deletes all the items.
 - [Unmark all]: Unmarks all the items.
 - [Cancel]: Cancels the delete function.

Setting Bluetooth Connection

1. Press [], [], [], or [★] on the phone screen.
2. Press [MENU] > [Connection settings] on the favourites screen.

3. For details, refer to the "Bluetooth" on the page 111.

Voice recognition system

What is voice recognition?

Voice recognition technology runs the system as ordered by recognizing your voice command to ensure the safe operation of multimedia while you are driving the car. Regrettably, not all possible voice commands are recognized by the system due to technological limitations. To make up for these limitations, the system displays the voice commands that are available for you to use. There are errors in communication between people. Likewise, voice recognition sometimes misunderstands your voice command in some circumstances. If this happens, either check the screen for the available options and say the command again, or manually select and press the button for the corresponding command on the screen.

Voice recognition features by language

Voice recognition support availability varies according to the language set for the system.

Please verify the currently set language before using the voice recognition.

- If you change the language set for the system to Slovakia or Korean, voice recognition will not be supported. Change the system language to other language.

- Navigation command does not support the Russian, Portuguese, Polish, Swedish, Turkish, Czech, and Danish. Change the system language to other language.

Operating voice command

Condition for voice command system

Most of the functions can be operated by voice. Please follow the following instructions for optimal voice recognition performance.

- Close all windows and the sunroof. The performance of the voice recognition can be improved if the environment of the car interior is quiet.
- Press the voice recognition button and say the desired voice command after the sound of the beep.
- The microphone is positioned above the driver so that voice commands should be spoken with driver's proper posture.
- Pronounce the voice commands naturally and clearly as if in a normal conversation.
- Special symbols of phonebook name are not considered in voice recognition.
Ex) James-Smith :"James Smith"
- House number or digits in Phonebook name should be spoken discretely.

Ex) S1234 :"South one two three four"

- Depending on the specifications, some commands may not be supported.

Starting voice recognition

1. Shortly press " " on the steering remote control.
2. Say a command.

Note

- For proper recognition, please say the command after the voice instruction and beep tone.
- Starting voice recognition, the voice command entry window with six representative commands is displayed.
- If voice recognition is in [Beginner], then the system will provide the detailed voice recognition guidance.
If voice recognition is in [Normal], then the system will provide the simple version of voice recognition guidance.
If voice recognition is in [Advanced], then you will only hear a beep.
For further details, refer to the "Voice recognition" on page 113.

Voice recognition system

Skipping Prompt Messages

While prompt message is being stated, shortly press "  " on the steering remote control.

The prompt message is immediately ended and the beep tone will sound. After the beep tone, please say the voice command.

Re-starting voice recognition

While system waits, shortly press "  " on the steering remote control.

The command waiting condition is ended and the beep tone will make sound. After the "beep", say the voice command.

Ending voice recognition

- While voice recognition is operating, press and hold "  " on the steering remote control or say "exit".
- While using voice recognition, pressing other button except on the steering wheel remote control or a different button on head unit will end voice recognition.

Adjusting voice recognition volume

While voice recognition is operating, turn "VOL" knob on the head unit or press "VOL+/VOL-" on the steering remote control.

Basic operation for voice command (Setting FM)

1. Press the "  " on the steering wheel remote control.

The system awaits for your command and displays a list of accessible commands on the screen.

2. Once the  icon changes into the  icon on the pop-up screen with a beep tone sound, say "FM".

Voice Recognition Quick Start (Manual Control)

The usual way of activating voice recognition is by waiting for the voice guide and then speaking your command for a task. Since this method requires that you wait a while for the voice guide, you can select one of the commands shown on the screen to speed up the process.

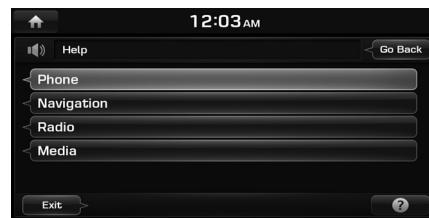

You might find this feature useful when you do

not want to wait for the full voice guide or when the system does not recognise your voice.

About voice command "Help"

1. Press the  on the steering wheel remote control.
2. Once the  icon changes into the  icon on the pop-up screen with a beep tone sound, say "Help".
The available commands are displayed on the screen.

3. Select or say the displayed command on the screen.

Voice recognition system

Voice command list

Voice recognition commands are classified as "Global Commands" and "Local Commands."

- Global commands (●) : Commands that can be used immediately after activating voice recognition.
- Local commands (□) : Commands that can be used in specific multimedia/navigation/Bluetooth mode states.

Some commands will operate properly only when a USB, iPod, Bluetooth or other device has been connected.

Phone commands

- Voice commands related to phone calls can be used after connecting the Bluetooth phone device.
- To call a person, for example "Call <John Smith>" whose name is listed in contacts, you must download firstly the mobile phone contacts. (Up to 5,000 mobile phone contacts can be downloaded.) For details on downloading contacts, see "Downloading mobile phone contacts" on the page 91.
- After downloading the Bluetooth phone contacts, it will take some time to convert the phone contacts into voice data during which time you cannot make a call by name yet. The time takes to convert voice data may vary depending on the number of contacts downloaded.

Command		Operation
●	Call	Downloaded mobile phone contacts is displayed on the screen, and afterwards, you can make a call by speaking the name.
●	Call <Name>	You can immediately make a call to (name) in the downloaded mobile phone contacts. Ex.) "Call John Smith"
●	Call <Name> on Mobile	You can immediately make a call to (name) in the downloaded mobile phone contacts saved as 'mobile'. Ex.) "Call John Smith on mobile"
●	Call <Name> in Office	You can immediately make a call to (name) in the downloaded mobile phone contacts saved as 'Office'. Ex.) "Call John Smith in office"
●	Call <Name> at Home	You can immediately make a call to (name) in the downloaded mobile phone contacts saved as 'Home'. Ex.) "Call John Smith at home"

Voice recognition system

●	Call <Name> on Other	You can immediately make a call to (name) in the downloaded mobile phone contacts saved as another phone category except 'mobile, home, office'. Ex.) "Call John Smith on other"
●	Dial number	It displays the dial number screen that you can speak the phone number.
●	Dial <Phone #>	You can make a call by speaking directly the number you want to call. Ex.) Dial 123-456-7890 : "Dial one two three four five six seven eight nine zero"
●	Redial	It immediately make a call to the last called phone number in the call history.
●	Call history	It displays the latest call list, and you can make a call by speaking the list number.

Radio commands

Command	Operation
● Radio	It runs radio that listened recently among FM, AM and DAB.
● FM	It runs FM radio.
● FM <87.50~ 108.00>	It runs the frequency you spoke of FM radio. Ex.) FM 87.50 : "FM eighty seven point five"
● AM	It runs AM radio.
● AM <522~1620>	It runs the frequency you spoke of AM radio. Ex.) AM 522 : "AM five hundred twenty two"
□ Preset <1~12>	It runs the saved No. 1~12 broadcastings when FM/AM or DAB is listening.
● DAB	It runs DAB radio.
● DAB station	It displays the DAB station list.
□ Station list	It displays the DAB station list when DAB is listening.

Voice recognition system

●	Traffic announcement on	It turns on real-time traffic information announcement.
●	Traffic announcement off	It turns off real-time traffic information announcement.

Media commands

Check the followings before you use media commands.

1. If no media is connected or if no playable files exist at the time when you use these commands, a voice message will tell you that this is not available at present.
2. If you say the name of the media that is currently playing again, then that media will continue playing. e.g.) Saying "USB" while USB content is playing.

Command	Operation
● Media	It plays file from media that run recently.
● Music	It plays music file from media that run recently. This command does not include video or image.
● Video	It plays video file from media that run recently.
● Image	It plays image file from media that run recently.
● Disc	It plays a disc that is currently inserted.
● iPod	It plays a music file of iPod that is currently connected. It works identically when iPhone is connected and if not iPod but USB is connected, it will plays a music file of USB instead of iPod.
● USB	It plays or displays a file of USB that is currently connected. If not USB but iPod is connected, it plays a music file of iPod instead of USB.

Voice recognition system

●	Bluetooth audio	It plays a music file of currently connecting Bluetooth mobile phone. It may not be supported according to Bluetooth connection condition.
●	Front iPod	It plays a music file of iPod connected in the front seat.
●	Rear iPod	It plays a music file of iPod connected in the rear seat. (Rear seat iPod : option)
●	AUX	It plays a music file of external device connected in the AUX jack.
●	Jukebox	It plays a file of jukebox saved in the system.
●	Jukebox music	It plays a music file saved in jukebox.
●	Jukebox video	It plays a video file saved in jukebox.
●	Jukebox image	It displays a image file saved in jukebox.
●	USB music	It plays a music file from USB connected in the front or rear seat that played recently. (Rear seat USB: option)
●	USB video	It plays a video file from USB connected in the front or rear seat that played recently. (Rear seat USB: option)
●	USB image	It displays a image file from USB connected in the front or rear seat that played recently. (Rear seat USB: option)
●	Front USB	It plays or displays a file of USB connected in the front seat. If not USB, but iPod is connected, it plays a music file of iPod instead of USB.
●	Front USB music	It plays a music file of USB connected in the front seat.
●	Front USB video	It plays a video file of USB connected in the front seat.
●	Front USB image	It displays a image file of USB connected in the front seat.
●	Rear USB	It plays or displays a file of USB connected in the rear seat. If not USB but iPod is connected, it plays a music file of iPod instead of USB. (option)
●	Rear USB music	It plays a music file of USB connected in rear seat. (option)

Voice recognition system

●	Rear USB video	It plays a video file of USB connected in rear seat. (option)
●	Rear USB image	It plays a image file of USB connected in rear seat. (option)

Audio CD commands

Command		Operation
<input type="checkbox"/>	Play	It plays a stopped track. If it is playing, it remains the current condition.
<input type="checkbox"/>	Pause	It pauses a playing track. If it is paused, it remains the current condition.
<input type="checkbox"/>	Track <1~99>	It plays the track having spoken number.
<input type="checkbox"/>	Shuffle	It randomly plays all tracks. If it is randomly playing, it remains the current condition.
<input type="checkbox"/>	Shuffle off	It cancels the random playing and sequentially plays all tracks. If it is sequentially playing, it remains the current condition.
<input type="checkbox"/>	Repeat	It repeats the playing track. If it is repeating, it remains the current condition.
<input type="checkbox"/>	Repeat off	It cancels the repeat and sequentially plays all tracks. If it is sequentially playing, it remains the current condition.

Voice recognition system

MP3 CD/ USB music/ iPod commands

Command		Operation
<input type="checkbox"/>	Play	It plays a stopped file. If it is playing, it remains the current condition.
<input type="checkbox"/>	Pause	It pauses a playing file. If it is paused, it remains the current condition.
<input type="checkbox"/>	Shuffle	It randomly plays all files. If it is randomly playing, it remains the current condition.
<input type="checkbox"/>	Shuffle off	It cancels the random playing and sequentially plays all files. If it is sequentially playing, it remains the current condition.
<input type="checkbox"/>	Repeat	It repeats the playing file. If it is repeating, it remains the current condition.
<input type="checkbox"/>	Repeat off	It cancels the repeat and sequentially plays all files. If it is sequentially playing, it remains the current condition.

Bluetooth audio/ AUX/ video/ image commands

There are two types of media command.

- Global commands are available at all times. e.g. "Bluetooth Audio", "AUX", "Video", "Image"
- Local commands are available if the supported media mode is active. e.g. "Play", "Pause", "Shuffle", "Shuffle off", "Repeat", "Repeat off" are available in audio modes.

Voice recognition system

Navigation commands

Check the following before you use navigation commands :

1. Search for and find addresses located in the country in which you are driving.

If you want to search in another country, say the name of country and then look it up.

Search Address is classified by country to provide you with faster search results.

2. Some commands such as "Stop Guidance" are available only when the destination has been fixed.

Command		Operation
●	Search address	<p>Searches for the address and sets it as the destination.</p> <p>To search for an address, say "City → Street → House number" (in that order, excluding the country). e.g. London, Eresby Place, 32 (three two)</p>
●	Nearest POI	Find the nearest points of interest to your current location. After this command, you can find the name of a location following the step-by-step instructions.
●	Nearest <Category>	Find <Category> nearest to your current location. For details of "Category", see the "nearest <Category>list" on page 105.e.g. Nearest "Parking"
●	POIs near destination	Finds POIs near the destination. After this command, you can find the name of a location following the step-by-step instructions.
●	<Category> near destination	Finds something in the category "<Category>" near the destination. see the "Nearest <Category> list" on the page 105. e.g. "Parking" near destination
●	Map	Goes to the current position on the navigation map.
●	Previous points	Displays a list combining Previous destinations and Previous starting points all together. You can then set a destination by saying the listed number.
●	Previous destinations	Displays a list of recent destinations that you can return to by saying the number on the list.

Voice recognition system

● Previous starting points	Displays a list of recent starting points that you can return to by saying the number on the list.
● Traffic information	Goes to the Traffic Information menu screen.
● Go Home	Set your home as the destination. Your home address must be set up in the Navigation System.
● Go to Office	Set the destination to your office/place of work. Your office/place of work must be set up in the Navigation System.
● Voice guidance on	Turns on the voice guidance system.
● Voice guidance off	Turns off the voice guidance system.
● Maximum zoom	Zooms in as much as possible on the navigation map.
● Minimum zoom	Zooms out as much as possible on the navigation map.
● Stop guidance	Stop the route to the fixed destination.
● Resume guidance	Resume the route guidance to the fixed destination.
● Remaining time and distance	Tells you the remaining distance and time to your destination.
● Route options	Restarts the route to your destination. You can then select either "Fast" or "Short".
● Find fast route	Starts a new route to your destination that will take the least amount of time.
● Find short route	Starts a new route to your destination that will cover the shortest distance.
● Route overview	Displays a map overview of the entire route to your destination.

Voice recognition system

Other Commands (Commands used in List / Help/ etc.)

Command	Operation
● Help	Goes to the voice recognition help screen. All available commands can then be identified and used.
□ Yes/No	When voice recognition is active, this command is used when an answer is requested for a confirmation question.
□ Line 1-5 (One-Five)	When you cannot select a certain name, such as in Call History, you can select it using numbers. Simple numbers, such as "one" and "two", can be recognised.
□ Next page/ Previous page	When five or more searched items are listed, you can move to the previous or next page using a voice command.
□ Manual input	When Dial or Destination search results are displayed, this command is used to search manually rather than searching using a voice command. Voice recognition stops after this command is used.
□ Go back	Goes back to the previous screen.
● Exit	It ends the voice recognition.

Settings

Settings menu overview

Navigation

This menu describes navigation settings.

General

This menu is used to change general settings.

1. Press [HOME] > [Settings] > [Navigation] > [General]. Or press [NAV] > [Navigation settings] > [General].

2. Select the desired items.
 - [Unit]: Changes the unit between the "km" and "mile".
 - [Show previous points]: Changes the previous points view setting when starting the navigation. When the navigation is started without the route planned, a list of previous points can be displayed or not by setting.
 - [Auto search for petrol station]: Sets whether to search for petrol station automatically in the case of fuel shortage.
 - [Satellite status]: Displays the GPS satellites information.
 - [Reset navigation settings]: Resets the navigation settings.

Display

This menu is used to change the display environment settings.

1. Press [HOME] > [Settings] > [Navigation] > [Display]. Or press [NAV] > [Navigation settings] > [Display].

2. Select the desired items.
 - [Address book symbol]: Sets whether to display a symbol on the map about the positions saved in address book or not.
 - [Trace]: Sets whether to trace the route passed by the vehicle or not.
 - [Reset trace]: Resets the trace of the route passed by the vehicle.

Guidance

This menu is used to change the guidance settings.

1. Press [HOME] > [Settings] > [Navigation] > [Guidance]. Or press [NAV] > [Navigation settings] > [Guidance].

2. Select the desired items.
 - [Intersection mode]: Sets whether to display the intersection mode or not.
 - [Junction view mode]: Sets whether to display the junction view mode or not.

Settings

- [Speed limit]: Sets whether to display the speed limit or not.
- [Dynamic guidance]: Sets whether to execute the dynamic guidance or not.
- [Border crossing info]: Sets whether to inform the border crossing information or not.
- [Enhanced lane guidance]: Sets whether to guide the enhanced lane or not.

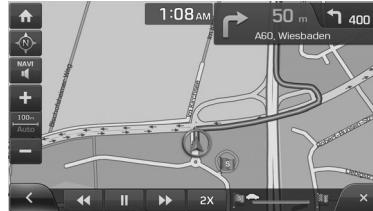

Route

This menu is used to change the route settings.

1. Press [HOME] > [Settings] > [Navigation] > [Route]. Or press [NAV] > [Navigation settings] > [Route].

2. Select the desired items.
 - [Multiple routes]: Sets whether to search for the multiple routes or not.
 - [Driving simulation]: Executes the driving simulation.

- [◀]: Move to the previous position.
- [▶]: Move to the next position.
- [⏸/▶]: Pauses or plays the driving simulation.
- [◀▶]: Quick move to the specific position.
- [☒]: Ends the driving simulation.

Traffic

This menu is used to change the traffic information event settings.

1. Press [HOME] > [Settings] > [Navigation] > [Traffic].

2. Select the desired items.

- [Traffic event]: Sets the traffic event to "On", "Off" or "Auto".
 - On/Off: Selects whether to display traffic event or not.
 - Auto: Displays automatically pop up message for traffic information.
- [Automatic TMC station]: When the TMC event is found on current route, the strongest TMC station is received automatically.
- [Favourite TMC station]: Selects your favourite TMC station (Automatic TMC is then switched off).

TMC: Traffic Message Channel

Settings

Sound

This menu describes sound settings.

Volume control

This menu is used to set the volume ratio.

1. Press [HOME] > [Settings] > [Sound] > [Volume control].

2. Select the desired item.
 - [Navigation guidance sound preferred]: Navigation guidance volume is louder than audio volume.
 - [Same volume ratio]: Audio volume and navigation guidance volume are in identical volume.

Fader/Balance

This menu allows you to set the sound position. For example, you can set the sound close to the driver-seat so that the volume is relatively lower in the passenger or rear seats.

1. Press [HOME] > [Settings] > [Sound] > [Fader/Balance].

2. Adjust the Fader/Balance.

Note

Press [Reset] to restore sound to the center position.

Treble/Middle/Bass

This menu allows you to set the Treble/Middle/Bass.

1. Press [HOME] > [Settings] > [Sound] > [Treble/Middle/Bass].

2. Adjust the Treble/Middle/Bass.

Note

Press [Reset] to restore sound to the center position.

Settings

Surround effect

This menu allows you to turn the surround effect on/off.

Press [HOME] > [Settings] > [Sound] > [Surround effect].

Speed Dependent Vol.

This menu allows you to control automatically the audio volume according to the speed of the vehicle.

Press [HOME] > [Settings] > [Sound] > [Speed Dependent Vol.].

Touch Tone

This menu allows you to play a beep sound whenever you operate the touch screen.

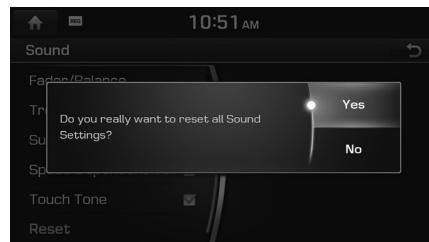

Press [HOME] > [Settings] > [Sound] > [Touch Tone].

Reset

This menu is used to reset all [Sound] settings.

1. Press [HOME] > [Settings] > [Sound] > [Reset].

2. Press [Yes].

Display

This menu describes display settings.

Set Video image

The screen ratio can be set in video modes, such as DVD, VCD, Jukebox video, USB video, or AUX video.

1. Press [MENU] > [Display Settings] > [Set Video image].

2. Select the desired options.

- [Brightness]: Adjusts the brightness.
- [Contrast]: Adjusts the contrast.
- [Saturation]: Adjusts the saturation.

Settings

Set LCD Brightness

This menu is used to set the LCD brightness.

1. Press [HOME] > [Settings] > [Display] > [Set LCD Brightness].

2. Adjust the LCD Brightness.

- [LCD Brightness]: Adjusts the LCD Brightness.
- [Reset]: Resets the LCD Brightness.

Illumination Settings

This menu is used to set the screen brightness by illumination.

1. Press [HOME] > [Settings] > [Display] > [Illumination Settings].

2. Select the desired options.

- [Auto-illumination]: Adjusts the brightness automatically according to surrounding brightness.
- [Daylight]: Always keeps the brightness on high regardless of surrounding brightness.
- [Night]: Always keeps the brightness on low regardless of surrounding brightness.

Ratio

The screen ratio can be set in video modes, such as DVD, VCD, Jukebox video, USB video, or AUX video.

1. Press [HOME] > [Settings] > [Display] > [Ratio].

2. Select the desired option.

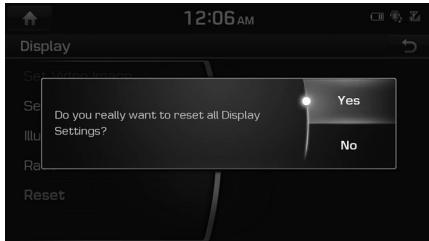

- [Full display]: Displays the full screen.
- [Normal View]: Displays the 4:3 screen with the black bar appeared at the left and right side.

Settings

Reset

This menu is used to reset all [Display] settings.

1. Press [HOME] > [Settings] > [Display] > [Reset].

2. Press [Yes].

Bluetooth

This menu describes Bluetooth settings.

Bluetooth connection

This menu is used to pair and connect the head unit and a Bluetooth phone.

1. Press [HOME] > [Settings] > [Bluetooth] > [Bluetooth connection].

2. Follow the steps 2-6 of the "When a phone is already paired" on the page 87.

Auto connection priority

If auto connection priority is turned on, a Bluetooth device will automatically be connected according to the option setting when the car ignition is turned on.

1. Press [HOME] > [Settings] > [Bluetooth] > [Auto connection priority].

2. Press the desired item.

! Note

If there is no phone selected, the previously connected phone will be automatically connected. If there are no previously connected phones, the system will try to connect to devices in the list in order.

Settings

Auto download

When the Bluetooth device is connected, contacts and call history are automatically downloaded to the vehicle. This function can be disabled if you don't want to use it. Some mobile phones may not support this function.

1. Press [HOME] > [Settings] > [Bluetooth] > [Auto download].

2. Press the desired item.
 - [Call log]: Downloads call history saved in your phone.
 - [Contacts]: Downloads contacts saved in your phone.

Audio Streaming

When audio streaming is set, you can play the music stored on a mobile device. When this setting is off, Audio Streaming is not available. Some mobile phones may not support this function.

- Press [HOME] > [Settings] > [Bluetooth] > [Audio Streaming].

Device Information

This menu allows you to control additional Bluetooth® Wireless Technology related settings.

1. Press [HOME] > [Settings] > [Bluetooth] > [Device Information].

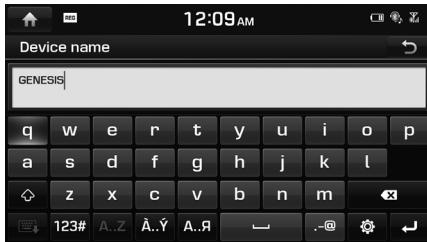

2. Press the desired item.
 - [Device name]: Changes the Bluetooth device name of the vehicle.
 - [Passkey]: Changes the passkey required to connect a Bluetooth® device to the car.
 - [Reset]: Deletes all paired devices and resets the bluetooth settings.

Settings

Device name

1. Press [HOME] > [Settings] > [Bluetooth] > [Device Information] > [Device name].

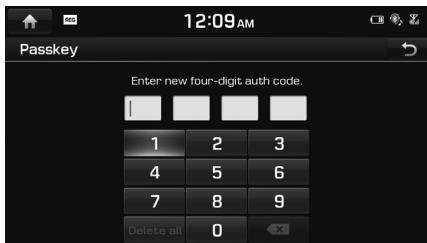

2. Input the desired name using the keypad, then press [].

Note

The default device name is set to GENESIS.

Passkey

1. Press [HOME] > [Settings] > [Bluetooth] > [Device Information] > [Passkey].

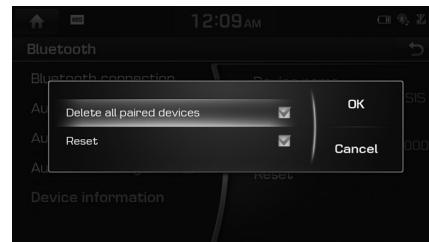

2. Input the passkey using the keypad.

Note

The passkey is a 4-digit authentication code used for a Bluetooth connection between the mobile phone and car system. The default passkey is set to 0000.

Reset

1. Press [HOME] > [Settings] > [Bluetooth] > [Device Information] > [Reset].

2. Press the desired items.
 - [Delete all paired devices]: Deletes all paired devices.
 - [Reset]: Resets the bluetooth settings.
3. Press [OK].

Voice recognition

This menu describes voice recognition settings.

1. Press [HOME] > [Settings] > [Voice recognition].
2. Select the desired item.

- [Beginner]: Detail voice recognition guidance is provided.
- [Normal]: Simple version of voice recognition guidance is provided.
- [Advanced]: Only the beep tone sound is played without any voice guidance.

Settings

Clock

This menu describes clock settings.

GPS time

This menu is used to display time according to the received GPS time.

Press [HOME] > [Settings] > [Clock] > [GPS time].

Note

When the GPS Time is turned off, you can set the clock manually.

Time Settings

1. Press [HOME] > [Settings] > [Clock] > [Time Settings].

2. Set the time, then press [OK].

Note

- Time settings cannot be used when GPS time is set. To manually set the time, change [GPS Time] setting to off, and set the time.
- The default settings of [Daylight Savings Time] is set to off.

Daylight Savings Time

This menu is used to turn on/off daylight saving time feature.

Press [HOME] > [Settings] > [Clock] > [Daylight Savings Time].

Note

When Daylight Savings Time is turned on, the clock is moved forward one hour.

Settings

Clock Type

This menu is used to set the type of clock displayed when the system power is turned off.

1. Press [HOME] > [Settings] > [Clock] > [Clock Type].

2. Select [Digital] or [Analogue].

Time Format

This function is used to convert the digital clock display between 12 hour/24 hour systems.

1. Press [HOME] > [Settings] > [Clock] > [Time Format].

2. Select [12 Hr] or [24 Hr].

General

Language

This menu is used to set the language of the system display and voice language.

1. Press [HOME] > [Settings] > [General] > [Language].

2. Select the desired language.

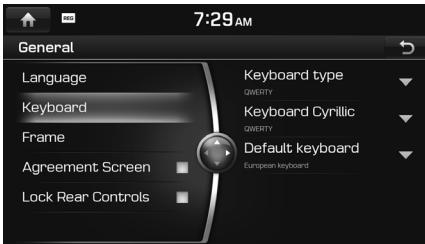

Settings

Keyboard

This menu allows you to change the type of keyboard used within the system.

The set keyboard will be applied to all input modes across the entire system.

1. Press [HOME] > [Settings] > [General] > [Keyboard].

2. Press [Keyboard type], [Keyboard Cyrillic], or [Default keyboard].

Item	Description
QWERTY/ QWERTZ	Keyboard similar to the one used within a computer.
ABCD/ AZERTY	Keyboard with characters arranged in alphabetical order.
European keyboard	Keyboard similar to the one used in Europe.

Korean keyboard	Keyboard similar to the one used in Korea.
--------------------	--

Frame

This menu is used to select the screen displayed when the system power is turned off.

1. Press [HOME] > [Settings] > [General] > [Frame].

2. Press the desired item.
 - [None]: No image is displayed.
 - [Clock]: Displays the clock on the screen.

Agreement Screen

It sets the Agreement Screen displayed during the system booting to automatically disappear after 5 seconds.

1. Press [HOME] > [Settings] > [General] > [Agreement Screen].

Note

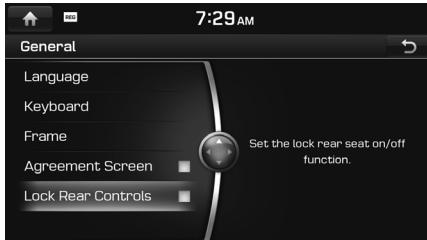

For safety, set the Agreement Screen setting to OFF.

Settings

Lock Rear Controls

This menu is used to lock the function for rear seat.

Press [HOME] > [Settings] > [General] > [Lock Rear Controls].

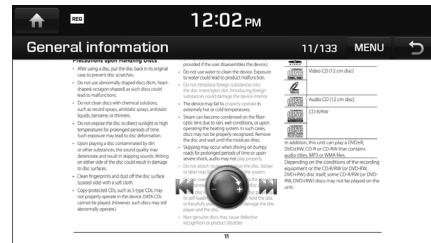

E-Manual

You can see the E-Manual.

1. Press [HOME] > [Settings] > [E-Manual].

2. Press the desired item.

<E-Manual screen>

Skip

You can see the previous or next page.

Push the controller to the left or right.

Zoom In/Out

In the electronic manual screen, if you turn the controller left/right, you can enlarge/reduce, and if you push the controller up/down/left/right, you can move it to the up/down/left/right.

Settings

Search

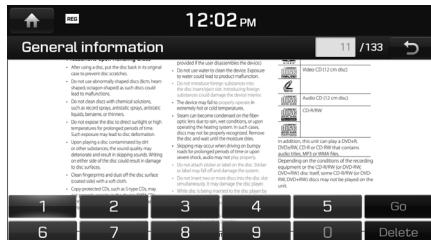

1. Press [MENU] > [Search] on the E-Manual screen.

2. Input the desired text and press [].

Go to page

1. Press [MENU] > [Go to page] on the E-Manual screen.

2. Input the desired page number and press [Go].

System Info

Version

This menu option allows you to view the system information.

Press [HOME] > [Settings] > [System Info] > [Version]

Note

The software information may differ from the actual information of the vehicle.

Jukebox Info

This menu is used to display the capacity of the stored information on the Jukebox.

1. Press [HOME] > [Settings] > [System Info] > [Jukebox Info].

2. Press [Format] to delete all data stored on the Jukebox.

Settings

Update

For system's software security, new function addition, and map update, you need an update. The latest map and software file can be downloaded from the web site <http://www.hyundai-mnsoft.com>, and you can update through USB or SD card. For details about update, check out the web site before proceeding.

1. Press [HOME] > [Settings] > [System Info] > [Update].

2. After inserting the USB with the update file, press [Update].

Once updating is complete, the system will automatically restart.

Note

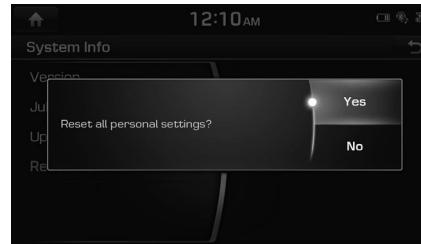

- This product requires regular updates for software corrections, new functions and map updates. Updating may require up to 1 hour depending on the data size.

- Turning off the power or ejecting the USB during the update process may result in data loss. Make sure to keep the ignition on and wait until updating is complete.
- Map and Navi software updates can be downloaded from the designated website (<http://www.mapnsoft.com>) and updated through the SD card.
- Please use only the SD card that was included with the vehicle purchase.
- The use of a separately purchased SD card may result in damage due to heat related deformation.
- Product malfunctions caused by the use of separately purchased SD cards shall not be covered within the product warranty.
- Repeatedly connecting/disconnecting the SD card in a short period of time may cause damage to the device.

Reset All

This menu is used to reset all settings specified by the user.

1. Press [HOME] > [Settings] > [System Info] > [Reset All].

2. Press [Yes].

Using rear camera - Option

About Rear Camera

- Rear camera is an option for the customers who selected the option.
- In this instrument, for the safety of the user, a rear camera that can secure the rear view during the backward driving is connected.
- After the vehicle is started, if the transmission lever is put to R, the rear camera power is automatically turned on, and the rear camera starts operation.
- If you change the transmission lever location from R to another position, rear camera stops.

Note

Rear camera has an optical lens to secure wide view, so there is a little difference in the distance shown on the screen. For safety, make sure to check the rear, left, and right view by yourself.

Turning on the rear camera

1. When the vehicle is started, put the transmission lever to R position.

Using PGS (Parking Guide System) - Option

About PGS (Parking Guide System)

- PGS (Parking Guide System) is an option for the customers who selected the option.
- In this instrument, for the safe parking of the user, a parking guide system which is displayed when gear is at R position is installed.
- After the vehicle is started, if the transmission lever is put to R, the PGS (Parking Guide System) starts automatically operation.
- If the transmission lever is changed from R to another position, PGS (Parking Guide System) operation stops.

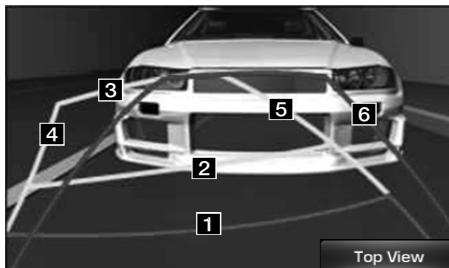

PGS screen

- 1** [Top View]/[Normal View]: It changes the rear viewing angle shown through the camera.

Normal View

- In top view screen, if you press [Normal View], it switches to normal view.

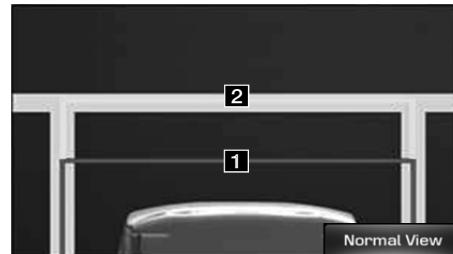

- Red line: 0.5m from vehicle's rear bumper
- Yellow line 1: 1.0m from vehicle's rear bumper
- Yellow line 2: 3.0m from vehicle's rear bumper
- Yellow line 3: vehicle path of the left side wheel in the vehicle's driver seat side
- Yellow line 4: vehicle path of the right side wheel in the vehicle's front passenger seat side
- Blue line: steering neutral path

Top View

- In normal view screen, if you press [Top View], it switches to top view.

It is the screen looking down the rear direction of the vehicle from above, and the screen composition is as follows.

- Red line: 0.5m from vehicle's rear bumper
- Yellow line: 1.0m from vehicle's rear bumper

Rear view angle conversion

- Top view (top part viewing angle): It provides a viewing angle looking down the rear direction of the vehicle from above.

- Normal view (rear viewing angle): It provides general rear viewing angle with perspective.

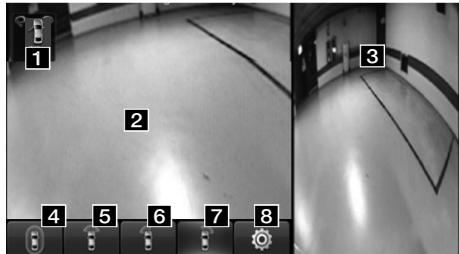

AVM (Around View Monitor) - Option

About AVM (Around View Monitor)

- AVM (Around View Monitor) is an option that is provided to the customers who selected the option.
- Through the 4 cameras installed in the vehicle, it can view front, back, left and right side.
- While vehicle is started, if gear is put to R position, it automatically starts AVM (Around View Monitor).
- If gear is changed from R to P position, AVM (Around View Monitor) operation stops.

Operating front AVM

After starting the vehicle, if you press  after putting gear to N or D, front AVM starts.

- 1** Warning display: driver seat/front passenger seat door and side mirror, and trunk open status are displayed.

2 Front camera screen: screen of the front of the vehicle is displayed through camera

3 AVM side camera screen: According to the selected display contents, it displays AVM or left or right side screen.

4  (Front + AVM display): It displays vehicle's front screen and all direction (AVM) screens at the same time.

5  (Front display): It only displays vehicle's front screen.

6  (Front + left side display): It displays the vehicle's front screen and left front screen at the same time.

7  (Front + right side display): It displays the vehicle's front screen and right side screen at the same time.

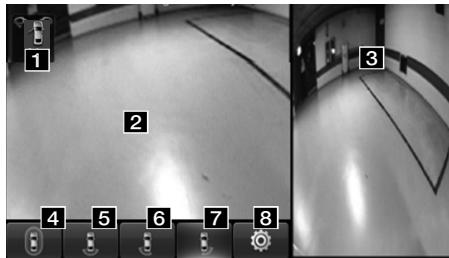

8  (AVM setting): It displays AVM setting menu.

Note

While front AVM is running, if you drive at about 20 km/h or more, AVM is turned off. At this state, even if you drive at about 20 km/h or less, AVM is remained at OFF state.

Operating rear AVM

After starting the vehicle, if you put gear at R position, rear AVM starts.

- 1** Warning display: driver seat/front passenger seat door and side mirror, and trunk open status are displayed.

2 Rear camera screen: screen of the rear of the vehicle is displayed through camera

3 AVM side camera screen: According to the selected display contents, it displays AVM or left or right side screen.

4  (Rear + AVM display): It displays vehicle's rear screen and all direction (AVM) screens at the same time.

5  (Rear display): It only displays vehicle's rear screen.

AVM (Around View Monitor) - Option

6 (Rear + left side display): It displays the vehicle's rear screen and left rear screen at the same time.

7 (Rear + right side display): It displays the vehicle's rear screen and right rear screen at the same time.

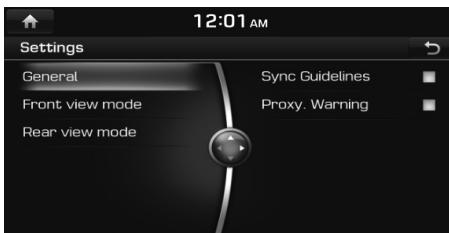

8 (AVM setting): It displays AVM setting menu.

Note

AVM (Around View Monitor) camera has an optical lens to secure wide view, so there is a little difference in the distance shown on the screen. For safety, make sure to check the rear, left, and right view by yourself.

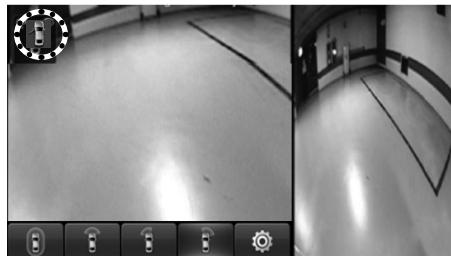

AVM setting

If you press button, it moves to 3 types of setting screens.

- [General]: It sets/resets guide line steering interface and approaching obstacle warning display function.
- [Front view mode]: It sets the front camera's initial screen as initial view. (Around view, front view, driver seat side front, and front passenger seat side front)
- [Rear view mode]: It sets the rear camera's initial screen as initial view. (Around view, rear view, driver seat side rear, and front passenger seat side rear)

Warning display

Driver's door open indicator

When the driver's door is open, (red color on left door) indicator is displayed on the top left of the screen.

Front passenger's door open indicator

When the front passenger's door is open, (red color on right door) indicator is displayed on the top left of the screen.

Trunk open indicator

When trunk is open, (red color on trunk) indicator is displayed on the top left of the screen.

Side mirror folding indicator

When the side mirror is folded, (side mirror) indicator is displayed on the top left of the screen.

Climate Mode

Operating Climate Mode

1. Press the CLIMATE key to display the Climate information screen.

- 1 Blower direction: It displays the set blower direction.
- 2 Outside temperature: It displays the current temperature outside the vehicle.
- 3 Front passenger seat set temperature: It displays the set temperature of the front passenger seat.
- 4 Driver seat set temperature: It displays the set driver seat temperature.
- 5 AUTO: It is displayed when AUTO button is selected, and the blower level and cooling/heating are automatically operated according to the set temperature.

6 A/C: It is displayed when A/C button is selected, and air conditioner is operated for vehicle cooling.

7 Blower level: It displays the set blower level

8 SYNC: When SYNC button is selected, front passenger seat temperature is set based on driver seat

9 Excessive indoor CO₂ display: It is displayed when excessive indoor CO₂ is detected.
(If this information is displayed, driving fatigue may occur, so ventilate to circulate indoor air.)

10 MENU: It moves to climate menu screen.

You can turn on/off the functions for Rear Climate Control, Smart Vent, and Auto Defog System.

- Rear Climate Control: Turns Climate Control for the rear seats on or off.
(If the air vent for rear seat is closed, the [Rear Climate Control] menu is deactivated.)

- Smart Vent: When humidity and carbon dioxide levels inside the car increase while Climate Control is turned off, air is automatically expelled to maintain a comfortable environment.

- Auto Defog System: Automatically operates the air conditioner to create a flow of air to clear the windshield.

Note

While other modes (AV, Navigation, etc.) are in operation, if climate operation key is pressed, climate status is displayed at the top part of the screen.

Before thinking there is a product defect

The current position as shown on the navigation may differ from the actual position under the following conditions.

The following occurrences are not malfunctions:

- When driving on Y-shaped roads with narrow angles the current position may be displayed in the opposite direction
- Within city streets, the current position may be displayed on the opposite side or on an off-road position
- When changing the zoom level from maximum to a different level, the current position may become displayed on a different road
- If the vehicle is loaded onto a ferry or a car transport vehicle, the current position may become stalled on the last position prior to loading
- When driving on a spiral-shaped road
- When driving in mountain regions with sharp turns or sudden brakes
- When entering a road after passing an underground parking structure, building parking structure, or roads with many rotations

- When driving in heavy traffic with frequent starts and stops
- When driving under slippery conditions, such as heavy sand, snow, etc.
- When driving on spiral-shaped roads
- When the tires have recently been replaced (Especially upon use of spare or studless tires).
- When using tires of improper size
- When the tire pressure for the 4 tires are different
- When the replacement tire is worn or used (Especially studless tires having passed a second season).
- When driving near high-rise buildings
- When a roof carrier has been installed
- When a long distance route is calculated while driving on an expressway, in such cases, continued driving will automatically enable the system to conduct map matching or use updated GPS information to provide the current position (In such cases, up to several minutes may be required)

Correct route guidance may not occur due to search conditions or driving position. The following occurrences are not malfunctions:

- Guidance to go straight may be given while driving on a straight road
- Guidance may not be given even when having turned at an intersection
- There are certain intersections in which guidance may not occur
- A route guidance signaling for a u-turn may occur in some No u-turn intersections
- Route guidance signaling entrance into a No-entry zone may occur (No-entry zone, road under construction, etc.)
- Guidance may be given to a position that is not the actual destination if roads to reach the actual destination do not exist or are too narrow
- Faulty voice guidance may be given if the vehicle breaks away from the designated route. (e.g. if a turn is made at an intersection while the navigation provided guidance to go straight.)

Before thinking there is a product defect

**These situations may occur after
conducting route calculation. The
following occurrences are not
malfunctions:**

- Guidance may be given to a position differing from the current position when turning at an intersection
- When driving in high speeds, route recalculation may take a longer period of time
- Route guidance signaling for a u-turn may occur in some No u-turn intersections
- Route guidance signaling entrance into No-entry zone may occur. (No-entry zone, road under construction, etc.)
- Guidance may be given to a position removed from the actual destination if roads to reach the actual destination do not exist or are too narrow
- Faulty voice guidance may be given if the vehicle breaks away from the designated route (e.g. If a turn is made at an intersection while the navigation provided guidance to go straight.)

Before thinking the product has malfunctioned

1. Errors which occur during the operation or installation of the device may be mistaken as a malfunction of the actual device.
2. If you are having problems with the device, try the suggestions listed below.
3. If the problems persist, contact your dealer.

Problem	Possible Cause
There are small red, blue, or green dots on the screen	Because the LCD is manufactured with technology requiring high point density, a pixel or lighting deficiency may occur within 0.01% of total pixels.
The sound or image is not working	<ul style="list-style-type: none">• Has the Switch for the vehicle been turned to [ACC] or [ON]?• Has the SYSTEM been turned OFF?
The screen is being displayed but sound is not working	<ul style="list-style-type: none">• Has the volume been set to a low level?• Has the volume been muted?
When the power is turned on, the corners of the screen are dark	<ul style="list-style-type: none">• The display appearing somewhat dark after prolonged periods of use is normal with LCD panels. It is not a malfunction.• If the screen is very dark, contact your nearest dealer for assistance.
Sound is working from only one speaker	Are the positions of Fader or Balance sound controls adjusted to only one side?
Sound does not work in AUX mode	Are the audio connector jacks fully inserted into the AUX terminal?
The external device is not working	Is the external device connected with a standard connector cable?
When turning power on, the most recent mode screen is not displayed	<p>Within modes that play files by reading external sources, such as discs, USB, iPod, or Bluetooth® streaming mode, the most recently played mode screen prior to turning off power may not properly load.</p> <ul style="list-style-type: none">• If there is no disc or the corresponding device is not connected, the mode operated prior to the most recent mode will operate.• If the previous mode still cannot be properly played, the mode operated prior to that will operate.

Troubleshooting

Problem	Possible Cause	Countermeasure
The power does not turn on.	The fuse is disconnected.	<ul style="list-style-type: none">Replace with a suitable fuse.If the fuse is disconnected again, please contact your point of purchase or service center.
	Device is not properly connected.	Check to see that the device has been properly connected.
The system does not play.	The disc has not been inserted or has been inserted upside down.	Insert the disc properly so that the sides are facing the correct direct.
	The disc has been contaminated.	Wipe away dirt and other foreign substances from the disc.
	The vehicle battery is low.	Charge the battery if the problem persists, contact your point of purchase or service center.
	A disc not supported by the device has been inserted.	Insert a disc which is supported by the device.
The image color/tone quality is low.	The brightness, saturation, and contrast levels are not set properly.	Properly adjust the brightness, saturation, and contrast levels through Display Setup.
Sound does not work.	The volume level is set to the lowest level.	Adjust the volume level.
	The connection is not proper.	Check to see that the device has been properly connected.
	The device is currently fast-forwarding, rewinding, scanning, or playing in slow mode.	The sound will not work when the device is fast-forwarding, rewinding, scanning, or playing in slow mode.

Troubleshooting

Problem	Possible Cause	Countermeasure
The sound or image quality is low.	The disc is dirty or scratched.	Wipe off water or dirt from the disc. Do not use a disc which has been scratched.
	Vibration is occurring from where the conversion switch has been installed.	The sound may be short circuited and the image distorted if the device vibrates.
	Image color/tone quality is low.	The device will return to normal once vibrations stop.
The USB does not work	USB memory is damaged.	Please use after formatting the USB into FAT 12/16/32 format.
	USB memory has been contaminated.	Remove any foreign substances on the contact surface of the USB memory and multimedia terminal.
	A separately purchased USB HUB is being used.	Directly connect the USB memory with the multimedia terminal on the vehicle.
	A USB extension cable is being used.	Directly connect the USB memory with the multimedia terminal on the vehicle.
	A USB which is not a Metal Cover Type USB Memory is being used.	Use standard USB Memory.
	An HDD type, CF, SD Memory is being used.	Use standard USB Memory.
	There are no music files which can be played.	Only MP3, WMA file formats are supported. Please use only the supported music file formats.
The iPod is not recognized even though it has been connected	There are no titles which can be played.	Use iTunes to download and save MP3 files into the iPod.
	The iPod firmware version has not been properly updated.	Use iTunes to update the firmware version and reconnect the iPod with the device.
	The iPod devie does not recognize downloads.	Reset the iPod and reconnect with the device.

Specification

Common	Power Supply	DC 14.4 V
	Operating Power	DC 9 V ~ DC 16 V
	Current Consumption	Maximum 5 A
	Dark Current	Maximum1 mA
	Operating Temperature	-20 °C ~ +70 °C
	Storage Temperature	-40 °C ~ +85 °C
	Dimensions (Head unit)	274.82 (W) x 108.38 (H) X 202.26 (D) mm
	Weight (Head unit)	2.7 kg
	Supported Profile	HFP(1.6), A2DP : (1.2) , AVRCP (1.3)
Bluetooth	Supported Bluetooth Specification	3.0
	Frequency Range	2402 MHz ~ 2480 MHz
	Output (Class2)	1.0 dBm
	Number of Channels	79

Radio	AM	
	Tuning range	522 kHz ~ 1620 kHz
	Sensitivity	35 dBuV
	Frequency response	30 Hz ~ 10000 Hz
	Signal-to-noise ratio	Minimum 45 dB
	FM	
	Tuning range	87.50 MHz ~ 108.00 MHz
	Sensitivity	12 dBuV
	Frequency response	30 Hz ~ 10000 Hz
CD/DVD	Signal-to-noise ratio	Minimum 50 dB
	FORMAT	CD-DA, CD-R, CD-RW, MP3, DVD (12 cm disc only)
	Interface	Serial (TAB2)
	Signal-to-noise ratio	Minimum 70 dB
	Frequency response	20 Hz ~ 20 kHz (± 3 dB)
	Distortion ratio	0.03%

Specification

TFT-LCD	Screen Size	233.95mm (9.2 inches) 204 (W) x 114.72 (H) mm (Active area)
	Resolution	921,600 pixel
	Operating Method	TFT (Thin Film Transistor) Active Matrix, In Plane Switching (IPS),
	Viewing Angle	Viewing Angle free (R/L 178(Min), U/D 178(Min.))
	Internal Lighting	LED

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundations software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each authors protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification") Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW, EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the programs name and an idea of what it does.

Copyright (C) yyyy name of author

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA. Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode: Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w. This is free software, and you are welcome to redistribute it under certain conditions; type `show c for details.

The hypothetical commands `show w and `show c should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w and `show c; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision (which makes passes at compilers) written by James Hacker.

LGPL 2.0/2.1

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc. 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.
- c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution

of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License). To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and an idea of what it does.> Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free

Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.

signature of Ty Coon, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!

LGPL 3.0

GNU Lesser General Public License

Version 3, 29 June 2007
Copyright (C) 2007 Free Software Foundation, Inc. <<http://fsf.org/>>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

0. Additional Definitions.

As used herein, "this License" refers to version 3 of the GNU Lesser General Public License, and the "GNU GPL" refers to version 3 of the GNU General Public License.

"The Library" refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An "Application" is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".

The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

- a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the object code with a copy of the GNU GPL and this license document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

- a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the Combined Work with a copy of the GNU GPL and this license document.
- c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.
- d) Do one of the following:
 - o 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.
 - o 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.
- e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

- a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

Academic Free License v2.1

v.2.1

This Academic Free License (the "License") applies to any original work of authorship (the "Original Work") whose owner (the "Licensor") has placed the following notice immediately following the copyright notice for the Original Work: Licensed under the Academic Free License version 2.1

1) Grant of Copyright License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license to do the following:

- a) to reproduce the Original Work in copies;
- b) to prepare derivative works ("Derivative Works") based upon the Original Work;
- c) to distribute copies of the Original Work and Derivative Works to the public;
- d) to perform the Original Work publicly; and e) to display the Original Work publicly.

2) Grant of Patent License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license, under patent claims owned or controlled by the Licensor that are embodied in the Original Work as furnished by the Licensor, to make, use, sell and offer for sale the Original Work and Derivative Works.

3) Grant of Source Code License. The term "Source Code" means the preferred form of the Original Work for making modifications to it and all available documentation describing how to modify the Original Work. Licensor hereby agrees to provide a machine-readable copy of the Source Code of the Original Work along with each copy of the Original Work that Licensor distributes. Licensor reserves the right to satisfy this obligation by placing a machine-readable copy of the Source Code in an information repository reasonably calculated to permit inexpensive and convenient access by You for as long as Licensor continues to distribute the Original Work, and by publishing the address of that information repository in a notice immediately following the copyright notice that applies to the Original Work.

4) Exclusions From License Grant. Neither the names of Licensor, nor the names of any contributors to the Original Work, nor any of their trademarks or service marks, may be used to endorse or promote products derived from this Original Work without express prior written permission of the Licensor. Nothing in this License shall be deemed to grant any rights to trademarks, copyrights, patents, trade secrets or any other intellectual property of Licensor except as expressly stated herein. No patent license is granted to make, use, sell or offer to sell embodiments of any patent claims other

than the licensed claims defined in Section 2. No right is granted to the trademarks of Licensor even if such marks are included in the Original Work. Nothing in this License shall be interpreted to prohibit Licensor from licensing under different terms from this License any Original Work that Licensor otherwise would have a right to license.

5) This section intentionally omitted.

6) Attribution Rights. You must retain, in the Source Code of any Derivative Works that You create, all copyright, patent or trademark notices from the Source Code of the Original Work, as well as any notices of licensing and any descriptive text identified therein as an "Attribution Notice." You must cause the Source Code for any Derivative Works that You create to carry a prominent Attribution Notice reasonably calculated to inform recipients that You have modified the Original Work.

7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants that the copyright in and to the Original Work and the patent rights granted herein by Licensor are owned by the Licensor or are sublicensed to You under the terms of this License with the permission of the contributor(s) of those copyrights and patent rights. Except as expressly stated in the immediately preceding sentence, the Original Work is provided under this License on an "AS IS" BASIS and WITHOUT WARRANTY, either express or implied, including, without limitation, the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential part of this License. No license to Original Work is granted hereunder except under this disclaimer.

8) Limitation of Liability. Under no circumstances and under no legal theory, whether in tort (including negligence), contract, or otherwise, shall the Licensor be liable to any person for any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or the use of the Original Work including, without limitation, damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses. This limitation of liability shall not apply to liability for death or personal injury resulting from Licensor's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

9) Acceptance and Termination. If You distribute copies of the Original Work or a Derivative Work, You must make a reasonable effort under the circumstances to obtain the express assent of recipients to the terms of this License. Nothing else but this License (or another written agreement between Licensor and You) grants You permission to create Derivative Works based upon the Original Work or to exercise any of the rights granted in Section 1 herein, and any attempt to do so except under the terms of this License (or another written agreement between Licensor and You) is expressly prohibited by U.S. copyright law, the equivalent laws of other countries, and by international treaty. Therefore, by exercising any of the rights granted to You in Section 1 herein, You indicate Your acceptance of this License and all of its terms and conditions.

10) Termination for Patent Action. This License shall terminate automatically and You may no longer exercise any of the rights granted to You by this License as of the date You commence an action, including a cross-claim or counterclaim, against Licensor or any licensee alleging that the Original Work infringes a patent. This termination provision shall not apply for an action alleging patent infringement by combinations of the Original Work with other software or hardware.

11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this License may be brought only in the courts of a jurisdiction wherein the Licensor resides or in which Licensor conducts its primary business, and under the laws of that jurisdiction excluding its conflict-of-law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any use of the Original Work outside the scope of this License or after its termination shall be subject to the requirements and penalties of the U.S. Copyright Act, 17 U.S.C. § 101 et seq., the equivalent laws of other countries, and international treaty. This section shall survive the termination of this License.

12) Attorneys Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License.

13) Miscellaneous. This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.

14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

15) Right to Use. You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You.

This license is Copyright (C) 2003-2004 Lawrence E. Rosen. All rights reserved.

Permission is hereby granted to copy and distribute this license without modification. This license may not be modified without the express written permission of its copyright owner.

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CREATIVE COMMONS PUBLIC LICENSE ("CCPL" OR "LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED.

BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HERE, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. TO THE EXTENT THIS LICENSE MAY BE CONSIDERED TO BE A CONTRACT, THE LICENSOR GRANTS YOU THE RIGHTS CONTAINED HERE IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS.

1. Definitions

"Adaptation" means a work based upon the Work, or upon the Work and other pre-existing works, such as a translation, adaptation, derivative work, arrangement of music or other alterations of a literary or artistic work, or phonogram or performance and includes cinematographic adaptations or any other form in which the Work may be recast, transformed, or adapted including in any form recognizably derived from the original, except that a work that constitutes a Collection will not be considered an Adaptation for the purpose of this License. For the avoidance of doubt, where the Work is a musical work, performance or phonogram, the synchronization of the Work in timed-relation with a moving image ("synching") will be considered an Adaptation for the purpose of this License.

"Collection" means a collection of literary or artistic works, such as encyclopedias and anthologies, or performances, phonograms or broadcasts, or other works or subject matter other than works listed in Section 1(f) below, which, by reason of the selection and arrangement of their contents, constitute intellectual creations, in which the Work is included in its entirety in unmodified form along with one or more other contributions, each

constituting separate and independent works in themselves, which together are assembled into a collective whole. A work that constitutes a Collection will not be considered an Adaptation (as defined below) for the purposes of this License.

"Creative Commons Compatible License" means a license that is listed at <http://creativecommons.org/compatiblelicenses> that has been approved by Creative Commons as being essentially equivalent to this License, including, at a minimum, because that license: (i) contains terms that have the same purpose, meaning and effect as the License Elements of this License; and, (ii) explicitly permits the relicensing of adaptations of works made available under that license under this License or a Creative Commons jurisdiction license with the same License Elements as this License.

"Distribute" means to make available to the public the original and copies of the Work or Adaptation, as appropriate, through sale or other transfer of ownership.

"License Elements" means the following high-level license attributes as selected by Licensor and indicated in the title of this License: Attribution, ShareAlike.

"Licensor" means the individual, individuals, entity or entities that offer(s) the Work under the terms of this License. "Original Author" means, in the case of a literary or artistic work, the individual, individuals, entity or entities who created the Work or if no individual or entity can be identified, the publisher; and in addition (i) in the case of a performance the actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret or otherwise perform literary or artistic works or expressions of folklore; (ii) in the case of a phonogram the producer being the person or legal entity who first fixes the sounds of a performance or other sounds; and, (iii) in the case of broadcasts, the organization that transmits the broadcast.

"Work" means the literary and/or artistic work offered under the terms of this License including without limitation any production in the literary, scientific and artistic domain, whatever may be the mode or form of its expression including digital form, such as a book, pamphlet and other writing; a lecture, address, sermon or other work of the same nature; a dramatic or dramatico-musical work; a choreographic work or entertainment in dumb show; a musical composition with or without words; a cinematographic work to which are assimilated works expressed by a process analogous to cinematography; a work of drawing, painting, architecture, sculpture, engraving or lithography; a photographic work to which are assimilated works expressed by a process analogous to photography; a work of applied art; an illustration, map, plan, sketch or three-dimensional work relative to geography, topography, architecture or science; a performance; a broadcast; a phonogram; a compilation of data to the extent it is protected as a copyrightable work; or a work performed by a variety or circus performer to the extent it is not otherwise considered a literary or artistic work.

"You" means an individual or entity exercising rights under this License who has not previously violated the terms of this License with respect to the Work, or who has received express permission from the Licensor to exercise rights under this License despite a previous violation.

"Publicly Perform" means to perform public recitations of the Work and to communicate to the public those public recitations, by any means or process, including by wire or wireless means or public digital performances; to make available to the public Works in such a way that members of the public may access these Works from a place and at a place individually chosen by them; to perform the Work to the public by any means or process and the communication to the public of the performances of the Work, including by public digital performance; to broadcast and rebroadcast the Work by any means including signs, sounds or images.

"Reproduce" means to make copies of the Work by any means including without limitation by sound or visual recordings and the right of fixation and reproducing fixations of the Work, including storage of a protected performance or phonogram in digital form or other electronic medium.

2. Fair Dealing Rights. Nothing in this License is intended to reduce, limit, or restrict any uses free from copyright or rights arising from limitations or exceptions that are provided for in connection with the copyright protection under copyright law or other applicable laws.

3. License Grant. Subject to the terms and conditions of this License, Licensor hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:

to Reproduce the Work, to incorporate the Work into one or more Collections, and to Reproduce the Work as incorporated in the Collections; to create and Reproduce Adaptations provided that any such Adaptation, including any translation in any medium, takes reasonable steps to clearly label, demarcate or otherwise identify that changes were made to the original Work. For example, a translation could be marked "The original work was translated from English to Spanish," or a modification could indicate "The original work has been modified";

to Distribute and Publicly Perform the Work including as incorporated in Collections; and,

to Distribute and Publicly Perform Adaptations.

For the avoidance of doubt:

Non-waivable Compulsory License Schemes. In those jurisdictions in which the right to collect royalties through any statutory or compulsory licensing scheme cannot be waived, the Licensor reserves the exclusive right to collect such royalties for any exercise by You of the rights granted under this License;

Waivable Compulsory License Schemes. In those jurisdictions in which the right to collect royalties through any statutory or compulsory licensing scheme can be waived, the Licensor waives the exclusive right to collect such royalties for any exercise by You of the rights granted under this License; and,

Voluntary License Schemes. The Licensor waives the right to collect royalties, whether individually or, in the event that the Licensor is a member of a collecting society that administers voluntary licensing schemes, via that society, from any exercise by You of the rights granted under this License.

The above rights may be exercised in all media and formats whether now known or hereafter devised. The above rights include the right to make such modifications as are technically necessary to exercise the rights in other media and formats. Subject to Section 8(f), all rights not expressly granted by Licensor are hereby reserved.

4. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

You may Distribute or Publicly Perform the Work only under the terms of this License. You must include a copy of, or the

Uniform Resource Identifier (URI) for, this License with every copy of the Work You Distribute or Publicly Perform. You may not offer or impose any terms on the Work that restrict the terms of this License or the ability of the recipient of the Work to exercise the rights granted to that recipient under the terms of the License. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties with every copy of the Work You Distribute or Publicly Perform. When You Distribute or Publicly Perform the Work, You may not impose any effective technological measures on the Work that restrict the ability of a recipient of the Work from You to exercise the rights granted to that recipient under the terms of the License. This Section 4(a) applies to the Work as incorporated in a Collection, but this does not require the Collection apart from the Work itself to be made subject to the terms of this License. If You create a Collection, upon notice from any Licensor You must, to the extent practicable, remove from the Collection any credit as required by Section 4(c), as requested. If You create an Adaptation, upon notice from any Licensor You must, to the extent practicable, remove from the Adaptation any credit as required by Section 4(c), as requested.

You may Distribute or Publicly Perform an Adaptation only under the terms of: (i) this License; (ii) a later version of this License with the same License Elements as this License; (iii) a Creative Commons jurisdiction license (either this or a later license version) that contains the same License Elements as this License (e.g., Attribution-ShareAlike 3.0 US); (iv) a Creative Commons Compatible License. If you license the Adaptation under one of the licenses mentioned in (iv), you must comply with the terms of that license. If you license the Adaptation under the terms of any of the licenses mentioned in (i), (ii) or (iii) (the "Applicable License"), you must comply with the terms of the Applicable License generally and the following provisions: (I) You must include a copy of, or the URI for, the Applicable License with every copy of each Adaptation You Distribute or Publicly Perform; (II) You may not offer or impose any terms on the Adaptation that restrict the terms of the Applicable License or the ability of the recipient of the Adaptation to exercise the rights granted to that recipient under the terms of the Applicable License; (III) You must keep intact all notices that refer to the Applicable License and to the disclaimer of warranties with every copy of the Work as included in the Adaptation You Distribute or Publicly Perform; (IV) when You Distribute or Publicly Perform the Adaptation, You may not impose any effective technological measures on the Adaptation that restrict the ability of a recipient of the Adaptation from You to exercise the rights granted to that recipient under the terms of the Applicable License. This Section 4(b) applies to the Adaptation as incorporated in a Collection, but this does not require the Collection apart from the Adaptation itself to be made subject to the terms of the Applicable License. If You Distribute, or Publicly Perform the Work or any Adaptations or Collections, You must, unless a request has been made pursuant to Section 4(a), keep intact all copyright notices for the Work and provide, reasonable to the medium or means You are utilizing: (i) the name of the Original Author (or pseudonym, if applicable) if supplied, and/or if the Original Author and/or Licensor designate another party or parties (e.g., a sponsor institute, publishing entity, journal) for attribution ("Attribution Parties") in Licensor's copyright notice, terms of service or by other reasonable means, the name of such party or parties; (ii) the title of the Work if supplied; (iii) to the extent reasonably practicable, the URL, if any,

that Licensor specifies to be associated with the Work, unless such URI does not refer to the copyright notice or licensing information for the Work; and (iv), consistent with Section 3(b), in the case of an Adaptation, a credit identifying the use of the Work in the Adaptation (e.g., "French translation of the Work by Original Author," or "Screenplay based on original Work by Original Author"). The credit required by this Section 4(c) may be implemented in any reasonable manner; provided, however, that in the case of a Adaptation or Collection, at a minimum such credit will appear, if a credit for all contributing authors of the Adaptation or Collection appears, then as part of these credits and in a manner at least as prominent as the credits for the other contributing authors. For the avoidance of doubt, You may only use the credit required by this Section for the purpose of attribution in the manner set out above and, by exercising Your rights under this License, You may not implicitly or explicitly assert or imply any connection with, sponsorship or endorsement by the Original Author, Licensor and/or Attribution Parties, as appropriate, of You or Your use of the Work, without the separate, express prior written permission of the Original Author, Licensor and/or Attribution Parties.

Except as otherwise agreed in writing by the Licensor or as may be otherwise permitted by applicable law, if You Reproduce, Distribute or Publicly Perform the Work either by itself or as part of any Adaptations or Collections, You must not distort, mutilate, modify or take other derogatory action in relation to the Work which would be prejudicial to the Original Author's honor or reputation. Licensor agrees that in those jurisdictions (e.g. Japan), in which any exercise of the right granted in Section 3(b) of this License (the right to make Adaptations) would be deemed to be a distortion, mutilation, modification or other derogatory action prejudicial to the Original Author's honor and reputation, the Licensor will waive or not assert, as appropriate, this Section, to the fullest extent permitted by the applicable national law, to enable You to reasonably exercise Your right under Section 3(b) of this License (right to make Adaptations) but not otherwise.

5. Representations, Warranties and Disclaimer

UNLESS OTHERWISE MUTUALLY AGREED TO BY THE PARTIES IN WRITING, LICENSOR OFFERS THE WORK AS-IS AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE WORK, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, OR THE ABSENCE OF LATENT OR OTHER DEFECTS, ACCURACY, OR THE PRESENCE OF ABSENCE OF ERRORS, WHETHER OR NOT DISCOVERABLE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO SUCH EXCLUSION MAY NOT APPLY TO YOU.

6. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. Termination

This License and the rights granted hereunder will terminate automatically upon any breach by You of the terms of this License. Individuals or entities who have received Adaptations or Collections from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License.

Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work).

Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

8. Miscellaneous

Each time You Distribute or Publicly Perform the Work or a Collection, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License.

Each time You Distribute or Publicly Perform an Adaptation, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License.

If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You.

The rights granted under, and the subject matter referenced, in this License were drafted utilizing the terminology of the Berne Convention for the Protection of Literary and Artistic Works (as amended on September 28, 1979), the Rome Convention of 1961, the WIPO Copyright Treaty of 1996, the WIPO Performances and Phonograms Treaty of 1996 and the Universal Copyright Convention (as revised on July 24, 1971). These rights and subject matter take effect in the relevant jurisdiction in which the License terms are sought to be enforced according to the corresponding provisions of the implementation of those treaty provisions in the applicable national law. If the standard suite of rights granted under applicable copyright law includes additional rights not granted under this License, such additional rights are deemed to be included in the License; this License is not intended to restrict the license of any rights under applicable law.

Creative Commons Notice

Creative Commons is not a party to this License, and makes no warranty whatsoever in connection with the Work. Creative Commons will not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. Notwithstanding the foregoing two (2) sentences, if Creative Commons has expressly identified itself as the Licensor hereunder, it shall have all rights and obligations of Lessor.

Except for the limited purpose of indicating to the public that the Work is licensed under the CCPL, Creative Commons does not authorize the use by either party of the trademark "Creative Commons" or any related trademark or logo of Creative Commons without the prior written consent of Creative Commons. Any permitted use will be in compliance with Creative Commons' then-current trademark usage guidelines, as may be published on its website or otherwise made available upon request from time to time. For the avoidance of doubt, this trademark restriction does not form part of the License.

Creative Commons may be contacted at <http://creativecommons.org/>.

SIL OPEN FONT LICENSE

- Amiri font

Copyright (c) 2010-2013, Khaled Hosny (<khaledhosny@eglug.org>)

This Font Software is licensed under the SIL Open Font License, Version 1.1.
This license is copied below, and is also available with a FAQ at: <http://scripts.sil.org/OFL>

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software. PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.
- 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.
- 5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met. DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL THE COPYRIGHT HOLDER BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.
